Amendment 002 is being issued to make the following changes:

1. Answer questions

Questions and Answers:

1. Re: Page 6 of 20 under "Attachments" heading. Item #1 Wide Area Mower – indicates a Ventrac MK960 or equivalent with a cut width of 95" with rear discharge.
Our firm sells an equivalent Steiner tractor which will meet the specifications in the rest of the solicitation however our options for the wide area mower on the Steiner are a 72" rear discharge or a 84" side discharge.

Q 1: Would either of these wide area mowers be acceptable?

A 1: No. The rear discharge wide area mower is what we are looking for (we have already 6 x 72" mowers so we don't need the small mower attachment). We like the rear discharge for safety going along the road side.

2. Re: Page 6 of 20 under "Controls" heading. Item #3 – Front Hitch Lock Column – indicates "mounted (accessible from seat)". While the Ventrac has a release from the seat, the benefit of this feature is moot, as it still requires the operator to exit the seat, go to the front of the machine and remove the implement belt. On the Steiner Tractor, the operator would release the implement at the front of the tractor where the implement drive belt is located.

A: 2 Comments

This would be acceptable

ALL OTHER TERMS AND CONDITIONS OF THIS SOLICITATION REMAIN UNCHANGED
