Amendment 003 has been raised to answer the following question.

Question:

I do not see a clause in the tender documents that addresses copper escalation.

A mechanism should be in place to protect the bidders and DND, whereby the cable copper content and copper base is stated at the time of bid submission. PWGSC / DND can select a copper base to use so all things remain equal. The price will then be adjusted at the time of purchase order placement based on the current price of copper. I have seen this clause included on other tenders, and it is particularly important on a 400MCM conductor size cable.

Answer:

The following clause is added to section 6 of the Request for Proposal.

6. 20 Price Adjustment - Metals

1. The prices detailed in the Contract are subject to upward or downward adjustment, according to changes at time of delivery, to allow for:
 - a. changes due to price adjustment in metal products that are a direct result of increased or decreased current base price imposed by the applicable metals commodity market. A copy of the Contractor's notification of base price increase or decrease from the metal producer must be provided to the Contracting Authority; and/or
 - b. imposition of any new or changes to any existing levies, tariffs or fees of whatsoever nature applicable to any metal product, authorized, imposed or agreed to by Canada or any provincial government or by any Governmental Regulatory Authority.
2. The contract price will be amended to reflect the actual increase or decrease at time of delivery. The Contractor must not invoice at prices other than those specified in the Contract.
