**This amendment 001 is raised to answer questions received from the industry as follows:**

**Q1:** Due to the holidays and office closures, we would like to request an extension to the closing date.

**A1:** The closing date has been extended until Friday January 15, 2021 at 2pm EST.

**Q2:** Typical W1 & W4 - Category 1

- a. Can you confirm how many outlets are required per station?
- b. Can you confirm if stations will be powered with top feed or basefeed (hardwired)?

**A2:** a. As per the panel matrix, panel C shows 2 boxes on both sides. Both boxes should have an electrical duplex outlet. Panel E shows 2 boxes on one side. 1 box should be an electrical duplex outlet and the other one blank for IT cabling.  
b. For pricing purposes, plan for top feed electrical connection (10'-0" tall poles from AFF) as most of our existing sites are connected in this manner. Base feed connectivity may be required in some projects.

**Q3:** Typical W2 - Category 1

- a. Would metal case credenza be acceptable?
- b. We also suggest the total length be 48" – as per your drawing, the credenza won't be able to go all the way back under the height adjustable table leg.

**A3:** a. A laminate credenza is required, as per the specifications.  
b. The dimensions will remain as per the specifications as the credenza must only go 8-10" under the height adjustable table.

**Q4:** Typical W4 - Category 1. Item J, you are asking for acrylic or frosted privacy screen – would fabric be acceptable, as its more privacy and better to use in combination with dual monitor arm.

**A4:** We require an acrylic or frosted privacy screen, as per the specifications.

**Q5:** Typical W1 - Category 2. The Basis of Payment indicates Item A as a 30x54 height adjustable table and Item B as a 24x54 height adjustable table but the typical for W1 shows 30x54 and 24x72 (23x70). Please confirm.

**A5:** Item A remains a 30x54 height adjustable table. Item B is modified to be a 24x72 height adjustable table. The new GOCUID is 2WSSREXXL24L72BELXX. A basis of payment – revision 1 will be posted separately.

**Q6:** All Benching (Typical W2, W3 and W4) - Category 2

- a. Can you confirm if we can use hardwired base feed for all of these typicals?
- b. Can you confirm for typical W2 and W3 only – how many outlets per table?

**A6:** a. For pricing purpose, plan for base feed electrical connectivity for workpoint W2 & W3 but we will require the 2 types on different projects as the base feed options is not always possible. For workpoint W4, as it is composed of panels, refer to Q2.  
b. We will require 2 duplex electrical outlet and 1 box for IT cable per seating area.

**Q7:** Lockers - Category 3

- a. Would all metal be acceptable? Would all metal with laminate front would be acceptable?
- b. Would 23-3/4" or 18-3/4" deep be acceptable?
- c. Would coat hook instead of coat rod be acceptable?
- d. Would letter size filing acceptable?
- e. Please confirm you want only one door per locker

**A7:**

- a. We require laminate lockers, as per the specifications.
- b. We require the dimensions as indicated in the specifications.
- c. We require a coat rod.
- d. No, we require legal size filing.
- e. We do not have a preference on a single or double door.

**Q8:** For delivery and installation percentages

- a. Is there a minimum product quantity order to estimate proper delivery and installation charges?
- b. Should we include both regular hour and overtime percentage for the installation as it will not be the same.

**A8:**

- a. No, there is no minimum product quantity per call-up against the standing offer.
- b. The suppliers are asked to provide a maximum rate for hardware, delivery and installation. If multiple rates are provided per line item, PSPC will utilize the higher rate for evaluation purposes.

**All other Terms and Conditions remain unchanged.**
