This amendment 002 is raised to answer questions received from the industry as follows:

Q1: In amendment 001, Q&A 2, it was indicated that panel type C has two duplex receptacle outlet boxes. Since W1 workpoint has 2 panel type C and 1 panel type E, can you please confirm that you would like to have 5 duplex receptacles (10 plug-in points) in each of the workstations? Government Workspaces standard is 3 duplex receptacle outlets per workstation.

A1: We will go with the government standard of 3 duplex outlets per work points. Panel C is modified to include only 1 duplex receptacle, instead of 2.

Q2: Cat 2, Workpoint W4, 2WSSDEXXL24L54BELXX is described in Annex B as a laminated height adjustable benching (120) digital electric controls and a fabric privacy screen of 22" to 26" mounted above surface. This GoCUID is for an Individual Height Adjustable Worksurface 120, Laminate, Electric, with no screen provision. Could you please confirm if you require a fabric screen mounted on the work surface, in addition to the Cat 1 acrylic/glass screen being requested for workpoint W4?

A2: The product description for item K, 2WSSDEXXL24L54BELXX, is modified to read the following: "Laminated height adjustable benching digital electric controls". The mentions of a fabric privacy screen has been removed. The acrylic/glass screen is still required, as per the typical drawing and Annex B.

Q3: Cat 6C, F1.2, Individual Work Pod with Work Surface.

a. Can you please provide more information about your request/requirement for Non SA Extra wings?

b. Are these to be quoted at this time?

A3: a. As per the SA, the privacy enclosure does not wrap the workpoint to create a bubble. We request that a wing partition that is part of the product to be added to cover more than 50% of the workpoints.

b. Yes

All other Terms and Conditions remain unchanged.
