The [2003](#) (2020-05-28) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must

be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Alberta.

2.5 Bid Challenge and Recourse Mechanisms

- (b) Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority. Canada's [Buy and Sell](#) website, under the heading "[Bid Challenge and Recourse Mechanisms](#)" contains information on potential complaint bodies such as:
 - Office of the Procurement Ombudsman (OPO)
 - Canadian International Trade Tribunal (CITT)
- (c) Suppliers should note that there are **strict deadlines** for filing complaints, and the time periods vary depending on the complaint body in question. Suppliers should therefore act quickly when they want to challenge any aspect of the procurement process.

PART 3 - BID PREPARATION INSTRUCTIONS

3.1 Bid Preparation Instructions

The Bidder must submit its bid electronically in accordance with section 08 of the 2003 standard instructions. The epost Connect system has a limit of 1GB per single message posted and a limit of 20GB per conversation.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment.

3.1.1 Electronic Payment of Invoices – Bid

If you are willing to accept payment of invoices by Electronic Payment Instruments, complete Annex “D” Electronic Payment Instruments, to identify which ones are accepted.

Section III: Certifications

Bidders must submit the certifications and additional information required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada and BATUS will evaluate the bids.
- (c) The evaluation team will determine if there are two (2) or more bids with a valid Canadian content certification with the bids coming from two or more Bidders that are not affiliated within the meaning used in the *Competition Act*, R.S.C., 1985, c. C-34. In that event, only those bids with a valid certification will be eligible to be awarded a contract; otherwise, all bids will be eligible. If at any point in the evaluation process it is found, whether by determination of invalidity of certifications, determination that bids are non-responsive or withdrawal of bids by Bidders, that there are no longer two (2) or more responsive bids with a valid certification, then all responsive bids will be eligible to be awarded a contract. Canada may conduct the validation of Canadian content certifications at any time in the evaluation process including doing so concurrently with other steps.

4.2 Basis of Selection

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract.

5.1 Certifications Required with the Bid

Bidders must submit the following duly completed certifications as part of their bid.

5.1.1 Integrity Provisions - Declaration of Convicted Offences

In accordance with the Integrity Provisions of the Standard Instructions, all bidders must provide with their bid, **if applicable**, the declaration form available on the [Forms for the Integrity Regime](http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html) website (<http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html>), to be given further consideration in the procurement process.

ANNEX "A"

REQUIREMENT

For the purposes of this procurement, Canada is acting as AGENT for the British Army Training Unit Suffield in accordance with the "Agreement Between the Government of Canada and The Government of The United Kingdom of Great Britain and Northern Ireland on British Armed Forces' Training in Canada" and the "Memorandum of Understanding Between The Department of National Defence of Canada and The Ministry of Defence of the United Kingdom of Great Britain and Northern Ireland Concerning British Armed Forces Training at Canadian Forces Base Suffield (the "MOU")."

1. Scope

The Department of National Defence (DND), Canadian Forces Base Suffield, on behalf of the British Army Training Unit Suffield (BATUS) at Ralston, Alberta, requires a contract for the delivery and installation of two (2) Vehicle Lift Platforms for the BATUS OPFOR Vehicle Store and BATUS Workshop Ops Support Fitter Section.

2. Background

BATUS is located within CFB Suffield and is located approximately fifty (50) KM west of Medicine Hat, AB in an isolated location. The principal task of BATUS is to plan and deliver a number of exercises for visiting British Army armoured and armoured infantry Battle Groups (BGs) to train to United Kingdom Ministry of Defence (UK MOD) - mandated collective training standards

Vehicles are required to be lifted into the air to allow tradespeople to work underneath them, without having to crawl into confined spaces. Current practice is to use mechanical creepers or, where available, an inspection pit. This reduces output, triggers safety constraints and presents a risk of serious injury.

The existing vehicle lift platform has fallen into a state of disrepair and it is cost prohibitive to have it repaired.

3. Deliverables

- a. Supply, delivery and installation of one (1) Vehicle Lift Platform with minimum 5 Ton (min 11,000 lb) capacity and extended length car lift.
- b. Supply, delivery and installation of one (1) Vehicle Lift Platform with minimum 10 Ton (min 22,000 lb) capacity and extended length car lift.
- c. 5T and 10T Vehicle Platform Lifts must be 4-post hydraulic platforms
- d. 5T vehicle lift platform must be of a length that can accommodate heavy duty SUV type vehicles with a minimum 5.8m runway length.
- e. 5T vehicle lift platform must include 2x rolling bridge hydraulic jacks capable of lifting individual axles and supporting front and/or rear axle weight with a minimum 3T capacity.
- f. 10T vehicle lift platform must be of a length that can accommodate a heavy duty truck with a minimum 8.2m runway length.

- g. 10T vehicle lift platform must include 2x rolling bridge hydraulic jacks capable of lifting individual axles and supporting front and/or rear axle weight with a minimum 6T capacity.
- h. Both vehicle lift platforms must have a drop down on-ramp system to prevent vehicle roll off along with moveable wheel shocks.
- i. Both vehicle lift platforms must include hydraulic power capable of powering the maximum load capacity of the platforms.

COMPLIANCE MATRIX – MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS

Instructions to Bidders

1. A complete list of the mandatory evaluation criteria are detailed in the Compliance Matrix below.
2. Bids which fail to meet all of the mandatory evaluation criteria will be declared non-responsive.
3. Bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they meet each mandatory evaluation criteria. Bidder should demonstrate their capability in a thorough, concise and clear manner.
4. The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation or stating, without any substantiating information, that a bidder is compliant will not be sufficient.
5. Substantiating information may include, but is not limited to, specification sheets, technical brochures, photographs or illustrations. If published supporting technical documentation is not available, the Bidder should prepare a written narrative complete with a detailed explanation of how its bid demonstrates technical compliance. All substantiating information should be provided with the bid at solicitation closing date. It is the Bidders responsibility to ensure that the submitted supporting technical documentation provides detail to demonstrate that the proposed product(s) meet the requirements of the evaluation criteria.
6. If the supporting documentation referenced above has not been provided at bid closing, the Contracting Authority will notify the Bidder that they must provide supporting documentation within two (2) business days following notification. Failure to comply with the request of the Contracting Authority within that time period, will deem the bid non-responsive and the bid will be given no further consideration.
7. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present the topics in the order of the evaluation criteria, and include a grid in their proposal, containing the information which demonstrates how the bidder meets each evaluation criteria. Alternatively, and to avoid any duplication, bidders may also refer to the different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.
8. Bidders must address any concerns with the performance specifications in written detail to the Contracting Authority before bid closing as outlined in the Request for Proposal (RFP) document.
