Amendment number 005 is raised to answer supplier questions:

Q11: For the Tank Wagon Delivery the refinery test it at the Rack when we load it, but does the DND test it at their Facility before offloading?

A11: According to the information found in the D-82-002-007-SG-001 Part 4 Section 1:

- Case 1: If the Tank Wagon Delivery is done by road transport, upon arrival to the DND location for unloading, quality control testing of the Aviation Fuel would be performed by DND before unloading and after unloading.
- Case 2: If the Tank Wagon Delivery is done by rail transport, the supplier would be responsible to perform quality control testing after loading the Aviation Fuel from the Rail Tank Wagon to the delivery truck that would take it to the DND location for unloading. Once the delivery truck arrives to the DND location, Case 1 would be applicable.

Q12: Regarding the solicitation, I have not been able to find the contract incumbents and pricing by delivery location. I have found contract awardee information based on providences, but nothing more specific. Is this information available and if so, where can it be found?

A12: For a copy of the award summary for E60HL-190052/A, please contact pam.munz@tpsgc-pwgsc.gc.ca

All other terms and conditions of the Request for Standing Offer remain unchanged.
