If the Contractor's request for access is approved by Canada and arrangements are made to provide access to the Contractor, the Contractor, its subcontractors, agents and employees must comply with all the conditions applicable at the Work site. The Contractor must further ensure that the facilities and equipment are used solely for the performance of the Contract.

6.12 Canada's Facilities to Accommodate the Delivery

The Supplier's employees and subcontractors requiring access to the site must adhere to the health and safety plans established for the site, in addition to any laws in effect in the jurisdiction where the work is being performed.

During the period of the contract, a representative of Canada or a service provider(s) under contract with the Government of Canada may request the list of employees and subcontractors requiring access to the site to perform the work and their security statuses. Information must be provided in the timeframe prescribed in order to ensure that the supply, delivery and installation of the furniture aligns with the master schedule
