PROMPT PAYMENT IN THE CONSTRUCTION INDUSTRY

Prompt Payment Principles

Public Services and Procurement Canada advocates that construction-related payments should follow these three principles:

- **Promptness:** The department will review and process invoices promptly. If disputes arise, Public Services and Procurement Canada will pay for items not in dispute, while working to resolve the disputed amount quickly and fairly
- **Transparency:** The department will make construction payment information such as payment dates, company names, contract and project numbers, publicly available; likewise, contractors are expected to share this information with their lower tiers
- **Shared responsibility:** Payers and payees are responsible for fulfilling their contract terms including their obligations to make and receive payment, and to adhere to industry best practices

SI05 SUBMISSION OF BID

R2710T GI09 Submission of bid is modified as follows

Add subparagraph 5 - Electronic Bid Submission by epost Connect service

- a. Unless specified otherwise in the bid solicitation, bids may be submitted by using the epost Connect service provided by Canada Post Corporation.
- b. The only acceptable email address to use with epost Connect for responses to bid solicitations issued by PWGSC is:

Ontario: TPSGC.ORreceptiondessoumissions-ORBidReceiving.PWGSC@tpsgc-pwgsc.gc.ca

Note: Bids emailed directly to this email address will be rejected and deemed non-compliant. This email address is to be used to open an epost Connect conversation, as detailed in c., or to send proposals through an epost Connect message if the Bidder is using its own licensing agreement for epost Connect.

- c. To submit a bid using epost Connect service, the Bidder must either:
 - i. send directly its bid only to the specified PWGSC Bid Receiving Unit, using its own licensing agreement for epost Connect provided by Canada Post Corporation; or
 - ii. send as early as possible, and in any case, at least six business days prior to the solicitation closing date and time, (in order to ensure a response), an email that includes the bid solicitation number to the specified PWGSC Bid Receiving Unit requesting to open an epost Connect conversation. Requests to open an epost Connect conversation received after that time may not be answered.
- d. If the Bidder sends an email requesting epost Connect service to the specified Bid Receiving Unit in the bid solicitation, an officer of the Bid Receiving Unit will then initiate an epost Connect conversation. The epost Connect conversation will create an email notification from Canada Post Corporation prompting the Bidder to access and action the message within the conversation. The Bidder will then be able to transmit its bid afterward at any time prior to the solicitation closing date and time.
- e. If the Bidder is using its own licensing agreement to send its bid, the Bidder must keep the epost Connect conversation open until at least thirty (30) business days after the solicitation closing date and time.

- f. The bid solicitation number should be identified in the epost Connect message field of all electronic transfers.
- g. It should be noted that the use of epost Connect service requires a Canadian mailing address. Should a bidder not have a Canadian mailing address, they may use the Bid Receiving Unit address specified in the solicitation in order to register for the epost Connect service.
- h. For bids transmitted by epost Connect service, Canada will not be responsible for any failure attributable to the transmission or receipt of the bid including, but not limited to, the following:
 - i. receipt of a garbled, corrupted or incomplete bid;
 - ii. availability or condition of the epost Connect service;
 - iii. incompatibility between the sending and receiving equipment;
 - iv. delay in transmission or receipt of the bid;
 - v. failure of the Bidder to properly identify the bid;
 - vi. illegibility of the bid;
 - vii. security of bid data; or,
 - viii. inability to create an electronic conversation through the epost Connect service.
- i. The Bid Receiving Unit will send an acknowledgement of the receipt of bid document(s) via the epost Connect conversation, regardless of whether the conversation was initiated by the supplier using its own license or the Bid Receiving Unit. This acknowledgement will confirm only the receipt of bid document(s) and will not confirm if the attachments may be opened nor if the content is readable.
- j. Bidders must ensure that they are using the correct email address for the Bid Receiving Unit when initiating a conversation in epost Connect or communicating with the Bid Receiving Unit and should not rely on the accuracy of copying and pasting the email address into the epost Connect system.
- k. A bid transmitted by epost Connect service constitutes the formal bid of the Bidder.

SI06 LETTER FROM THE CHIEF OF WASAUKSING

SC04 VALUE ADDED PROPOSALS (VAP)

PWGSC may accept "value added proposals" (VAPs) from the Contractor after award of contract through the duration of the contract (as specified in the Bid and Acceptance of the tender document). The intent of the VAP is to improve the project by leveraging the successful contractor's knowledge and experience to improve efficiency and effectiveness of the work. PWGSC will review VAPs to determine benefits to the project and Canada and adherence to VAP guidelines.

VAP GUIDELINES

1. General

These guidelines apply to VAP's initiated and developed by the Contractor for proposed improvements to schedule, drawings, designs, specifications, materials or other requirements of the Contract. Proposals must be submitted in writing. This clause only applies to proposals identified by the Contractor at the time of submission to the Department Representative as a proposal submitted pursuant to this VAP clause. The contractor shall consider delays for approvals by other government departments or agencies having jurisdiction.
2. VAP Scope

The VAP's contemplated are those that would necessitate an amendment to the existing contractual terms and conditions.

In general VAP's shall be considered for improvements to the following:

1. Schedule;
2. Project cost;
3. Safety;
4. Environmental impacts;
5. Quality;
6. Buildability;
7. Project life cycle costs;
8. Other aspects of the project; and
9. Any combination of the above.

3. Project Constraints

VAP's must be compliant with the following constraints:

1. Shall not impair any of the essential functions, characteristics or code compliance of the project such as service life, reliability, economy of operation, ease of maintenance, and necessary standardized features, while maintaining the specified quality; and
2. Shall not change the location of the project.

4. Value Added Proposal Submissions

Any VAP must include the information outlined below in the Value Added Proposal Submittal Documentation and submitted in accordance with Submittal Instructions.

If a VAP is accepted and provides the expected results, the Contractor may be eligible to receive a financial incentive for the accepted VAP (i.e. a share percentage of the savings, or; an incentive percentage mark up on direct costs, or; an incentive percentage mark up for demonstrated results) at the sole discretion of Canada. Costs are to be calculated in accordance with "Allowable Costs for Contract Changes Under General Conditions (GC) 6.4" OF THE CONTRACT.

5. Value Added Proposal Submittal Documentation

The following information shall be submitted by the General Contractor with each VAP at no additional cost to Canada:

- A description of the difference between the existing contract/requirement and the proposed improvement; the comparative advantages or disadvantages of each, including justification of why an item is being altered; the effect of the change on the performance of the end product; and any pertinent objective test data.
- An itemization of the requirements of the change order if the proposal is adopted and a recommendation as to how to make each change (e.g., a suggested revision).
- Cost Benefit Analysis – A detailed estimate of the reduction and/or increase that will result from adoption of the proposal, taking into account the costs of development and implementation by the Contractor. Include any amounts attributable to subcontracts in accordance with GC 6.4.1 "Allowable Costs for Contract Changes Under General Conditions (GC) 6.4.1" and the basis for the estimate.
- A prediction of any effects the proposed change would have on costs to the Crown and ongoing cost of maintenance and operations.
- An estimate of the date by which a change order adopting the proposal must be issued so as to obtain the maximum benefit, together with estimates of benefits if VAP approval is delayed beyond the maximum benefit date or number of days the proposal is valid, noting any effect on the order completion time or delivery schedule.
- Suggestions as to the incentive that may be available to the Contractor from the proposed VAP (i.e. a share percentage of the savings, or; an incentive percentage mark up on direct costs, or; an incentive percentage mark up for demonstrated results). Acceptance to be at the sole discretion of Canada.

6. Value Added Proposals Submittal Procedures

General Contractor Requirements:

The General Contractor submits a detailed description of the VAP complete with project impacts and schedule to the Departmental Representative for consideration. The VAP submission is to be supported by detailed drawings where necessary, as well as firm price (including detailed breakdown of all labour, material and equipment costs associated with the proposal).

Departmental Representative Requirements

1. Contractor may submit VAPs to the Departmental Representative after award of contract through the completion of the contract. As per the contract "time is of the essence" and as such proposals should be submitted as soon as possible after award.

Employers are also encouraged to find out what additional information and supports are available from their respective provincial or territorial jurisdiction.
