Amendment 002 is raised to modify Annex A, Requirement, Training and to extend the closing date.

1) To modify Annex A.

AT: Annex A – Requirement

DELETE: Requirement is to include onsite training as specified in Annex A, and must include options for extended Maintenance and Support Services beyond the initial contract period.

INSERT: Requirement is to include onsite and or virtual training specified in Annex A, and must include options for extended Maintenance and Support Services beyond the initial contract period.

2) To modify Annex A.

AT: Annex A – 7.0 Training

DELETE: Must provide on-site training which is to include but not restricted to instrument operation, library preparation, and bioinformatics software which must be provided to three Environment and Climate Change Canada personnel and must be during normal working hours (0800 to 1600) and up to 3 days as required. Training will be scheduled at vendor and Environment and Climate Change Canada mutually agreeable dates and times.

The Contractor must provide onsite training to the Client in English on use/maintenance of the equipment, and use of the software.

Training will be provided for the following audience:

End User (up to 4): Training must include operation and manipulation of the equipment. The training should include but not be limited to product functionality, product features and limitations.

On-site training must be completed within 5 days of instrument set-up and verification testing.

INSERT: Must provide on-site or virtual training which is to include but not restricted to instrument operation, library preparation, and bioinformatics software which must be provided to three Environment and Climate Change Canada personnel and must be during normal working hours (0800 to 1600) and up to 3 days as required. Training will be scheduled at vendor and Environment and Climate Change Canada mutually agreeable dates and times.

The Contractor must provide onsite or virtual training to the Client in English on use/maintenance of the equipment, and use of the software.

Training will be provided for the following audience:

End User (up to 4): Training must include operation and manipulation of the equipment. The training should include but not be limited to product functionality, product features and limitations.

On-site or virtual training must be completed within 5 days of instrument set-up and verification testing.
