**ADDENDUM NO. 2**

Subject: **Request for Proposal (RFP) - FP802-210006**

Title: **Carbon footprint analysis of five salmonid aquaculture technologies**

Dear Sir/Madam:

Further to the above-mentioned Invitation to Tender, this **Addendum no.2** is to advise potential bidders of the following Question & Answer:

**Question 6:**

The company I represent is interested in submitting a proposal for the RFP FP802-210006 - Carbon footprint analysis of five salmonid aquaculture technologies. Unfortunately, most of our specialists in this industry are located in Europe, so I would like to ask if there is a minimum local content required for this project. If awarded, the contract will be signed with one of our Canadian offices, they will most likely manage the project, but most of the work will be done overseas.

**Answer 6:**

There is no minimum local content (i.e. Canadian presence) required for this project, however the project and its outcome must reflect a Canadian perspective. For example, the case studies and carbon footprint analysis must be developed in a Canadian context (e.g. geographic setting, energy inputs, etc.).

All other terms and conditions remain unchanged.

Yours truly,

**Stéphane Julien**
