Amendment 002 is being raised to provide answers to questions that were asked and to modify the requirement for Annex A Requirement 3:

Question 1:

For Annex A Requirement 2 - Quantity of 64 chairs with the fold-away arms, to achieve this the arm needs to be height and width adjustable only, will the CA also respectively consider this option acceptable?

Answer 1:

Yes, the option presented in the question is acceptable.

Question 2:

For Annex A Requirement 3 - QTY 3 stool, for BIFMA stability testing the stool has a fixed depth of 17.5", please advise if the CA will respectively accept this option.

Answer 2:

Yes, the fixed depth of 17.5" is acceptable.

Question 3:

For Annex A Requirement 3 - A chair at seat height of 23" to 33" especially where seat depth adjustment is being requested is a potential tipping hazard if it has a tilt mechanism. A chair at the top range of 33" with the seat slider fully engaged (or not) is likely to tip over if the user tilts backwards in the chair.
Will the client accept a stool that offers no tilt function?

Answer 3:

Yes. Considering the hazard mentioned in the question, there will be no tilt mechanism on rotary stools.

Question 4:

Annex A Requirement 3 – You are requesting rotary stools with lumbar support that can move "up and down" and "in and out". Would you consider getting a quote for stools with no lumbar support or just "up and down"?

Answer 4:

We would prefer lumbar support with both capabilities for our rotary stools but will accept just "up and down".
