6. Provide a response back from Public Works and Government Services Canada to questions received from bidders.

Q1. In Annex "A" Statement of Work, Section Equipment Type and Services article 5 d) Combination Vacuum Truck must be equipped with a steamer unit. What is the purpose of requesting the steamer be required on the Vac Truck?

R1. The steamer unit does not need to be equipped on the Combination Vacuum truck but a steamer must be included and available as part of the pricing.

Q2. Does any of the work include confined space?

R2. Yes

Q3. If confined space work is required where would the pricing associated for it be indicated?

R3. Pricing is included in the all-inclusive hourly rate

Q4. In your document, at the question "may unscreened personnel be used for portions of the work? ". The box is checked yes.

Would you mind providing us a clarification on this point?

For example: if one Supervisor staff member on site has the Reliability Status Clearance will the rest of the staff on site have access to the working area providing they are accompanied by that person?

R4. Unscreened personnel may be used off the work site. All personnel that enter the Garrison are required to be screened.

If your tender has already been forwarded and you wish to revise same, this revision should reach the bid receiving area before the closing date.
