This amendment is being raised to address the following questions with regards to solicitation No **W0142-21X011/A**

Q1. Is Training on the Lifts required?

A1. No training is required, the manuals identified in the SOR will be sufficient.

Q2. Who is going to inspect and accept the lifts upon arrival in Ralston?

A2. DND along with CBO (Canadian Base Operators) will accept the project on completion of installation if accompanied by relevant warranties, guarantees, instruction manuals, test certificates etc at the specific buildings identified in the SOR within CFB Suffield (located 2 kms north of Ralston)

Q3. Does CFB Suffield have equipment available to transport the lifts from Ralston to Buildings #396 and #394? Or is this up to the supplier?

A3. As per the SOR, this is a supply and install requirement. Full delivery to the sites as indicated in the SOR and installation is required.

Q4. Can you advise of the timeframe from inspection and acceptance of the lifts in Ralston to Buildings #396 and #394 and being ready for installation?

A4. Initial 'receiving process' is to take place at Bldg 322 located at CFB Suffield. This is expected to take less than an hour. Following this, inspection and acceptance will take place at the required locations as identified in the SOR. Arrangements for the inspection and acceptance will be done upon completion of the project.

Q5. Are we allowed to condition our quote?

A5. Bidders are required to provide their bid and bid price at time of bid close. Changes to the bid and BoP after that time will not be accepted

Q6. Who is responsible for looking after the electrical from the panels to the new lifts?

A6. DND will be responsible for the electrical from the panels to the new lifts. Once a contract is awarded, DND will work with the supplier to ensure the proper power requirements are available for the lifts and will mutually agree on the notice required to ensure the site is ready for delivery and inspection.
