## **PART 1 - GENERAL INFORMATION**

### **1.1 Requirement**

The requirement is detailed under Annex A.

### **1.2 Debriefings**

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days from receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

### **1.3 epost Connect service**

This bid solicitation allows bidders to use the epost Connect service provided by Canada Post Corporation to transmit their bid electronically. Bidders must refer to Part 2 entitled Bidder Instructions, and Part 3 entitled Bid Preparation Instructions, of the bid solicitation, for further information.

## **PART 2 - BIDDER INSTRUCTIONS**

### **2.1 Standard Instructions, Clauses and Conditions**

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The [2003](#) (2020-05-28) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsection 5.4 of [2003](#), Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: 60 days  
Insert: 90 days

#### **2.1.1 SACC Manual Clauses**

[B1000T](#) (2014-06-26) Condition of Material  
[B3000T](#) (2006-06-16) Equivalent Products

### **2.2 Submission of Bids**

Bids must be submitted electronically either through epost connect or Facsimile to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit, as specified below, by the date, and time indicated on page 1 of the bid solicitation.

PWGSC Bid Receiving Unit

Facsimile number: (819) 997-9776

epost Connect: [tpsgc.dgareceptiondessomissions-abbidreceiving.pwgsc@tpsgc-pwgsc.gc.ca](mailto:tpsgc.dgareceptiondessomissions-abbidreceiving.pwgsc@tpsgc-pwgsc.gc.ca)

Note: Bids will not be accepted if emailed directly to the above email address. This email address is to be used to open an epost Connect conversation, as detailed in Standard Instructions [2003](#), or to send bids through an epost Connect message if the bidder is using its own licensing agreement for epost Connect.

No bid shall be sent directly to the PWGSC Contracting Authority.

Due to the nature of the bid solicitation, hard copy bids (paper or soft copies on media) submitted to PWGSC will not be accepted.

### **2.3 Enquiries - Bid Solicitation**

All enquiries must be submitted in writing to the Contracting Authority no later than ten (10) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

## 2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

## 2.5 Bid Challenge and Recourse Mechanisms

- (a) Several mechanisms are available to potential suppliers to challenge aspects of the procurement process up to and including contract award.
- (b) Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority. Canada's Buy and Sell website, under the heading "Bid Challenge and Recourse Mechanisms" contains information on potential complaint bodies such as:
  - Office of the Procurement Ombudsman (OPO)
  - Canadian International Trade Tribunal (CITT)
- (c) Suppliers should note that there are **strict deadlines** for filing complaints, and the time periods vary depending on the complaint body in question. Suppliers should therefore act quickly when they want to challenge any aspect of the procurement process.

---

## PART 3 - BID PREPARATION INSTRUCTIONS

### 3.1 Bid Preparation Instructions

Canada requests that the Bidder submits its bid in accordance with section 08 of the 2003 standard instructions. The epost Connect system has a limit of 1GB per single message posted and a limit of 20GB per conversation.

The bid must be gathered per section and separated as follows:

Section I: Technical Bid

Section II: Financial Bid

Section III: Certifications

If the Bidder is simultaneously providing copies of its bid using multiple acceptable delivery methods, and if there is a discrepancy between the wording of any of these copies and the electronic copy provided through epost Connect service, the wording of the electronic copy provided through epost Connect service will have priority over the wording of the other copies.

Due to the nature of the bid solicitation, hard copy bids (paper or soft copies on media) will not be accepted.

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that Bidders use a numbering system that corresponds to the bid solicitation.

#### Section I: Technical Bid

In their technical bid, Bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability in a thorough, concise and clear manner for carrying out the work.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that Bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, Bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

The technical bid consists of the following:

- (a) **Supporting Technical documentation:** Bidders must include technical brochures or technical data to demonstrate compliancy to the requirement as described in Annex A.
- (b) **List of Products:** Bidders must include a complete product list identifying: the product name; the name of manufacturer; the model and part number of each component which make up the system. Bidders must also state the point of manufacture and shipping of goods or where service is to be performed: The bidder is requested to use the form provided in Annex "C".

#### Section II: Financial Bid

- (a) **Pricing:** Bidders must submit their financial bid in accordance with the Basis of Payment including Annex "B" – Basis of Payment.

- 
- (b) **All Costs to be Included:** The financial bid must include all costs for the requirement described in the bid solicitation for the entire Contract Period, including any option years. The identification of all necessary equipment, software, peripherals, cabling and components required to meet the requirements of the bid solicitation and the associated costs of these items is the sole responsibility of the Bidder.
- (c) **Blank Prices:** Bidders are requested to insert "\$0.00" for any item for which it does not intend to charge or for items that are already included in other prices set out in the tables. If the Bidder leaves any price blank, Canada will treat the price as "\$0.00" for evaluation purposes and may request that the Bidder confirm that the price is, in fact, \$0.00. No bidder will be permitted to add or change a price as part of this confirmation. Any bidder who does not confirm that the price for a blank item is \$0.00 will be declared non-responsive.

### 3.1.1 Electronic Payment of Invoices – Bid

If you are willing to accept payment of invoices by Electronic Payment Instruments, complete Annex "X" Electronic Payment Instruments, to identify which ones are accepted.

If Annex "X" Electronic Payment Instruments is not completed, it will be considered as if Electronic Payment Instruments are not being accepted for payment of invoices.

Acceptance of Electronic Payment Instruments will not be considered as an evaluation criterion.

### 3.1.2 Exchange Rate Fluctuation

SACC Manual clause [C3011T](#) (2013-11-06), Exchange Rate Fluctuation

### 3.1.3 SACC Manual Clauses

#### Section III: Certifications

Bidders must submit the certifications and additional information required under Part 5.

## **PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**

### **4.1 Evaluation Procedures**

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

#### **4.1.1 Technical Evaluation**

##### **4.1.1.1 Technical Evaluation Criteria**

The mandatory technical evaluation criteria are detailed in Annex "A" part 2.1.

#### **4.1.2 Financial Evaluation**

The financial evaluation will be conducted by calculating the Total Aggregated Bid Price in accordance with the pricing tables provided in Annex "B" – Basis of Payment.

#### **Evaluation of Price - Bid**

The price of the bid will be evaluated in Canadian dollars, Applicable Taxes excluded, DDP Ottawa Incoterms® 2010, Canadian customs duties and excise taxes included.

Unless the bid solicitation specifically requires bids to be submitted in Canadian currency, bids submitted in foreign currency will be converted to Canadian currency for evaluation purposes. The rate given by the Bank of Canada in effect on the bid solicitation closing date, or on another date specified in the bid solicitation, will be applied as a conversion factor to the bids submitted in foreign currency.

### **4.2 Basis of Selection**

- 4.2.1 *SACC Manual* Clause [A0069T](#) (2007-05-25) - Basis of Selection

## **PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION**

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract.

### **5.1 Certifications Required with the Bid**

Bidders must submit the following duly completed certifications as part of their bid.

#### **5.1.1 Integrity Provisions - Declaration of Convicted Offences**

In accordance with the Integrity Provisions of the Standard Instructions, all bidders must provide with their bid, **if applicable**, the declaration form available on the [Forms for the Integrity Regime](http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html) website (<http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html>), to be given further consideration in the procurement process.

### **5.2 Certifications Precedent to Contract Award and Additional Information**

The certifications and additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

#### **5.2.1 Integrity Provisions – Required Documentation**

In accordance with the section titled Information to be provided when bidding, contracting or entering into a real property agreement of the [Ineligibility and Suspension Policy](http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html>), the Bidder must provide the required documentation, as applicable, to be given further consideration in the procurement process.

#### **5.2.2 Federal Contractors Program for Employment Equity - Bid Certification**

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "[FCP Limited Eligibility to Bid](https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html)" list available at the bottom of the page of the [Employment and Social Development Canada \(ESDC\) - Labour's](https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html) website (<https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html>).

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html)" list at the time of contract award.

Canada will also have the right to terminate the Contract for default if a Contractor, or any member of the Contractor if the Contractor is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html)" list during the period of the Contract.

---

The Bidder must provide the Contracting Authority with a completed annex Federal Contractors Program for Employment Equity - Certification, before contract award. If the Bidder is a Joint Venture, the Bidder must provide the Contracting Authority with a completed annex Federal Contractors Program for Employment Equity - Certification, for each member of the Joint Venture.

### **5.2.3 Additional Certifications Precedent to Contract Award**

#### **5.2.3.4 Product Conformance**

The Bidder certifies that all goods proposed conform, and will continue to conform throughout the period of the contract, to the requirement detailed under Annex A.

---

**Bidder's authorized representative signature**

---

**Date**

#### **5.2.3.5 OEM Certification**

(i) Any Bidder that is not the Original Equipment Manufacturer (OEM) for every item of hardware or equipment proposed as part of its bid is required to submit the OEM's certification regarding the Bidder's authority to provide and maintain the OEM's hardware or equipment, which must be signed by the OEM (not the Bidder). No Contract will be awarded to a Bidder who is not the OEM of the hardware or equipment it proposes to supply to Canada, unless the OEM certification has been provided to Canada. Bidders are requested to use the OEM Certification Form included with the bid solicitation at Attachment 1 to Part 5 of the Bid Solicitation. Although all the contents of the OEM Certification Form are required, using the form itself to provide this information is not mandatory. For Bidders/OEMs who use an alternate form, it is in Canada's sole discretion to determine whether all the required information has been provided. Alterations to the statements in the form may result in the bid being declared non-responsive.

(ii) If the hardware or equipment proposed by the Bidder originates with multiple OEMs, a separate OEM certification is required from each OEM.

(iii) For the purposes of this bid solicitation, OEM means the manufacturer of the hardware or equipment, as evidenced by the name appearing on the hardware or equipment and on all accompanying documentation.

---

## PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

### 6.1 Security Requirements

6.1.1 There is no security requirement applicable to the Contract.

### 6.2 Requirement

#### 6.2.1 Requirement

The Contractor must provide the items detailed under the "Requirement" at Annex A.

#### 6.2.2 Optional Requirement

- a) The Contractor grants to Canada the irrevocable option to acquire the goods, services or both as further described in Annex "A" under the same terms and conditions and at the prices and/or rates stated in the Contract. The option may only be exercised by the Contracting Authority and will be evidenced, for administrative purposes only, through a contract amendment.
- b) The Contracting Authority may exercise the option at any time before the expiry of the Contract by sending a written notice to the Contractor.
- c) **Option to Acquire Extended Warranty and Maintenance Services:** The Contractor grants to Canada the irrevocable option to extend the warranty, and maintenance and support period by three (3) additional one-year periods, exercisable at any time during the Contract Period, under the same terms and conditions and at the prices and/or rates stated in the Contract.

### 6.3 Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) issued by Public Works and Government Services Canada.

#### 6.3.1 General Conditions

[2010A](#) (2020-05-28), General Conditions - Goods (Medium Complexity), apply to and form part of the Contract.

The [2010A](#) (2020-05-28), General Conditions - Goods (Medium Complexity) is appended with Section 32 - Intellectual Property Infringement and Royalties, as follows:

- 1) The Contractor represents and warrants that, to the best of its knowledge, neither it nor Canada will infringe any third party's intellectual property rights in performing or using the Work, and that Canada will have no obligation to pay royalties of any kind to anyone in connection with the Work.
- 2) If anyone makes a claim against Canada or the Contractor concerning intellectual property infringement or royalties related to the Work, that Party agrees to notify the other Party in writing immediately. If anyone brings a claim against Canada, according to [Department of Justice Act](#), R.S. 1985, c. J-2, the Attorney General of Canada must have

the regulation and conduct of all litigation for or against Canada, but the Attorney General may request that the Contractor defend Canada against the claim. In either case, the Contractor agrees to participate fully in the defence and any settlement negotiations and to pay all costs, damages and legal costs incurred or payable as a result of the claim, including the amount of any settlement. Both Parties agree not to settle any claim unless the other Party first approves the settlement in writing.

- 3) The Contractor has no obligation regarding claims that were only made because:
- (a) Canada modified the Work or part of the Work without the Contractor's consent or used the Work or part of the Work without following a requirement of the Contract; or
  - (b) Canada used the Work or part of the Work with a product that the Contractor did not supply under the Contract (unless that use is described in the Contract or the manufacturer's specifications); or
  - (c) the Contractor used equipment, drawings, specifications or other information supplied to the Contractor by Canada (or by someone authorized by Canada); or
  - (d) the Contractor used a specific item of equipment or software that it obtained because of specific instructions from the Contracting Authority; however, this exception only applies if the Contractor has included the following language in its own contract with the supplier of that equipment or software: "[Supplier name] acknowledges that the purchased items will be used by the Government of Canada. If a third party claims that equipment or software supplied under this contract infringes any intellectual property right, [supplier name], if requested to do so by either [Contractor name] or Canada, will defend both [Contractor name] and Canada against that claim at its own expense and will pay all costs, damages and legal fees payable as a result of that infringement." Obtaining this protection from the supplier is the Contractor's responsibility and, if the Contractor does not do so, it will be responsible to Canada for the claim.
- 4) If anyone claims that, as a result of the Work, the Contractor or Canada is infringing its intellectual property rights, the Contractor must immediately do one of the following:
- (a) take whatever steps are necessary to allow Canada to continue to use the allegedly infringing part of the Work; or
  - (b) modify or replace the Work to avoid intellectual property infringement, while ensuring that the Work continues to meet all the requirements of the Contract; or
  - (c) take back the Work and refund any part of the Contract Price that Canada has already paid.

If the Contractor determines that none of these alternatives can reasonably be achieved, or if the Contractor fails to take any of these steps within a reasonable amount of time, Canada may choose either to require the Contractor to do (c), or to take whatever steps are necessary to acquire the rights to use the allegedly infringing part(s) of the Work itself, in which case the Contractor must reimburse Canada for all the costs it incurs to do so.

### **6.3.2 Additional General Conditions**

#### **6.3.2.1 Conduct of the Work**

- 1) The Contractor represents and warrants that:

- a. it is competent to perform the Work;
- b. it has everything necessary to perform the Work, including the resources, facilities, labour, technology, equipment, and materials; and
- c. it has the necessary qualifications, including knowledge, skill, know-how and experience, and the ability to use them effectively to perform the Work.

2) The Contractor must:

- a. perform the Work diligently and efficiently;
- b. except for Government Property, supply everything necessary to perform the Work;
- c. use, as a minimum, quality assurance procedures, inspections and controls generally used and recognized by the industry to ensure the degree of quality required by the Contract;
- d. select and employ a sufficient number of qualified people;
- e. perform the Work in accordance with standards of quality acceptable to Canada and in full conformity with the specifications and all the requirements of the Contract;
- f. provide effective and efficient supervision to ensure that the quality of workmanship meets the requirements of the Contract.

### 6.3.2.2 Subcontracts

The Contractor may subcontract the supply of goods or services that are customarily subcontracted by the Contractor. Subcontracting does not relieve the Contractor from any of its obligations under the Contract or impose any liability upon Canada to a subcontractor. In any subcontract, the Contractor agrees to bind the subcontractor by the same conditions by which the Contractor is bound under the Contract, unless the Contracting Authority agrees otherwise, with the exception of requirements under the Federal Contractors Program for employment equity which only apply to the Contractor.

### 6.3.2.2 Harassment in the workplace

- 1) The Contractor acknowledges the responsibility of Canada to ensure, for its employees, a healthy work environment, free of harassment. A copy of the [Policy on Harassment Prevention and Resolution](#), which is also applicable to the Contractor, is available on the Treasury Board Web site.
- 2) The Contractor must not, either as an individual, or as a corporate or unincorporated entity, through its employees or subcontractors, harass, abuse, threaten, discriminate against or intimidate any employee, contractor or other individual employed by, or under contract with Canada. The Contractor will be advised in writing of any complaint and will have the right to respond in writing. Upon receipt of the Contractor's response, the Contracting Authority will, at its entire discretion, determine if the complaint is founded and decide on any action to be taken.

### 6.3.2.4 Access to information

Records created by the Contractor, and under the control of Canada, are subject to the [Access to Information Act](#). The Contractor acknowledges the responsibilities of Canada under the [Access to Information Act](#) and must, to the extent possible, assist Canada in discharging these responsibilities. Furthermore, the Contractor acknowledges that section 67.1 of the [Access to Information Act](#) provides that any person, who destroys, alters, falsifies or conceals a record, or directs anyone to do so, with the intent of obstructing the right of access that is provided by the [Access to Information Act](#) is guilty of an offence and is liable to imprisonment or a fine, or both.

### 6.3.3 Supplemental General Conditions

[4001](#) (2015-04-01) Hardware Purchase, Lease and Maintenance,  
[4003](#) (2010-08-16) Licensed Software, and

**4004** (2013-04-25) Maintenance and Support Services for Licensed Software,

apply to and form part of the Contract.

## 6.4 Term of Contract

### 6.4.1 Period of the Contract

- a) The period of the Contract is from date of Contract award to **12 months after acceptance** inclusive; and
- b) The period during which the Contract is extended, if Canada chooses to exercise any options set out in the Contract.

### 6.4.2 Delivery Date

The initial deliverables must be delivered as follows:

Item	Description	Firm Delivery Date
1	One gas chromatograph system including any necessary supplemental items required that meets all the minimum essential technical requirements as described in Annex A	To be delivered by March 31 <sup>st</sup> , 2021
2	Installation	To be completed by June 30 <sup>th</sup> , 2021
3	Training	To be completed by September 30 <sup>th</sup> , 2021

### 6.4.3 Option to Extend the Contract

The Contractor grants to Canada the irrevocable option to extend the term of the Contract by up to 3 additional 1 year period(s) under the same terms and conditions. The Contractor agrees that, during the extended period of the Contract, it will be paid in accordance with the applicable provisions as set out in the Basis of Payment.

Canada may exercise this option at any time before the expiry date of the contract by sending a written notice to the Contractor. The option may only be exercised by the Contracting Authority, and will be evidenced for administrative purposes only, through a contract amendment.

### 6.4.4 Delivery Points

Delivery of the requirement will be made to delivery point(s) specified at Annex "A" of the Contract.

## 6.5 Authorities

### 6.5.1 Contracting Authority

The Contracting Authority for the Contract is:

Name: Delaney Barnett  
Title: Supply Officer

Solicitation No. - N° de l'invitation  
T8804-200081/A  
Client Ref. No. - N° de réf. du client  
T8804-200081

Amd. No. - N° de la modif.  
File No. - N° du dossier  
pv925 T8804-200081

Buyer ID - Id de l'acheteur  
pv925  
CCC No./N° CCC - FMS No./N° VME

Public Works and Government Services Canada  
Commercial Consumer Products Directorate  
140 O'Connor Street, 7th floor  
East Tower, L'Esplanade Laurier (LEL)  
Ottawa, Ontario, K1A 0R5

Telephone: 613-327-5986  
E-mail address: [Delaney.Barnett@tpsgc-pwgsc.gc.ca](mailto:Delaney.Barnett@tpsgc-pwgsc.gc.ca)

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

### 6.5.2 Technical Authority *(to be filled in only at contract award)*

The Technical Authority for the Contract is: *(to be filled in only at contract award)*

Name: \_\_\_\_\_  
Title: \_\_\_\_\_  
Organization: \_\_\_\_\_  
Address: \_\_\_\_\_

Telephone: \_\_\_\_\_  
E-mail address: \_\_\_\_\_

The Technical Authority named above is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Technical Authority, however the Technical Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

### 6.5.3 Contractor's Accounts Payable Contact *(to be filled in only at contract award)*

Name: \_\_\_\_\_  
Telephone: \_\_\_\_\_  
E-mail address: \_\_\_\_\_

### 6.5.4 Contractor's Representative *(to be completed by the bidder)*

The telephone number (with extension if applicable) of the person responsible for:

General enquiries	Delivery Follow-up
Name: _____	Name: _____
Tel. No. _____ ext: _____	Tel. No. _____ ext: _____
E-mail address: _____	E-mail address: _____

## 6.7 Payment

### 6.7.1 Basis of Payment – Initial Requirement

---

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid a firm price firm lot price(s), as specified in Annex "B" –Tables 1 for a cost of \$\_\_\_\_\_ **(to be filled in only at contract award)**. Customs duties are included and Applicable Taxes are extra.

Canada will not pay the Contractor for any design changes, modifications or interpretations of the Work, unless they have been approved, in writing, by the Contracting Authority before their incorporation into the Work.

### **6.7.2 Basis of Payment – Optional Requirement - Quarterly in Arrears**

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid a firm lot price, quarterly in arrears. The payment amount will be calculated by dividing the annual firm lot price, as specified under Annex "B" - Table 2, by four. Customs duties are included and Applicable Taxes are extra.

Canada will not pay the Contractor for any design changes, modifications or interpretations of the Work, unless they have been approved, in writing, by the Contracting Authority before their incorporation into the Work.

### **6.7.3 Method of Payment**

SACC *Manual* clause [H1001C](#) (2008-05-12) Multiple Payment

### **6.7.4 Electronic Payment of Invoices – Contract**

The Contractor accepts to be paid using any of the following Electronic Payment Instrument(s):

- a. Visa Acquisition Card;
- b. MasterCard Acquisition Card;
- c. Direct Deposit (Domestic and International);
- d. Electronic Data Interchange (EDI);
- e. Wire Transfer (International Only);

### **6.8 Invoicing Instructions**

**6.8.1** The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

**6.8.2** Invoices must be distributed as follows:

- (a) The original and one (1) copy must be forwarded to the address shown on page 1 of the Contract for certification and payment.
- (b) One (1) copy must be forwarded to the Contracting Authority identified under the section entitled "Authorities" of the Contract.
- (c) Invoices and order confirmations can be sent via e-mail to:

***To be filled in only at contract award***

- (d) To facilitate the payment process, it is important that the Contractor quote the contract number on all the invoices, shipping bills and packing slips. Failure to

do so will delay payment and the date used for calculating interest on overdue accounts.

## 6.9 Certifications and Additional Information

### 6.9.1 Compliance

Unless specified otherwise, the continuous compliance with the certifications provided by the Contractor in its bid or precedent to contract award, and the ongoing cooperation in providing additional information are conditions of the Contract and failure to comply will constitute the Contractor in default. Certifications are subject to verification by Canada during the entire period of the Contract.

### 6.10 Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

### 6.11 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the Articles of Agreement;
- (b) the supplemental general conditions:
  - i. [4001](#), Hardware Purchase, Lease and Maintenance;
  - ii. [4003](#), Licensed Software;
  - iii. [4004](#), Maintenance and Support Services for Licensed Software;
- (c) the general conditions 2010A General Conditions - Goods (Medium Complexity);
- (d) Annex A, Requirement;
- (e) Annex "B", Basis of Payments;
- (f) Annex "C", List of Products;
- (g) the Contractor's bid dated \_\_\_\_\_.

### 6.12 SACC Manual Clauses

SACC Manual clause [G1005C](#) (2018-06-21) Insurance  
SACC Manual clause [B1501C](#) (2018-06-21) Electrical Equipment  
SACC Manual clause [A2000C](#) (2006-06-16) Foreign Nationals (Canadian Contractor)  
SACC Manual clause [A2001C](#) (2006-06-16) Foreign Nationals (Foreign Contractor)  
SACC Manual clause [A9068C](#) (2010-01-11) Government Site Regulations

### 6.13 Shipping Instructions

#### 6.13.1 Shipping Instructions - Delivery at Destination

**6.13.1.1** Goods must be consigned to the destination specified in the Contract and delivered:

Delivered Duty Paid (DDP) Ottawa Incoterms® 2010 for shipments from a commercial contractor.

**6.13.1.2** The Contractor will be responsible for all delivery charges, administration, costs and risk of transport and customs clearance, including the payment of customs duties and taxes.

#### **6.14 Dispute Resolution**

- (a) The parties agree to maintain open and honest communication about the Work throughout and after the performance of the contract.
- (b) The parties agree to consult and co-operate with each other in the furtherance of the contract and promptly notify the other party or parties and attempt to resolve problems or differences that may arise.
- (c) If the parties cannot resolve a dispute through consultation and cooperation, the parties agree to consult a neutral third party offering alternative dispute resolution services to attempt to address the dispute.
- (d) Options of alternative dispute resolution services can be found on Canada's Buy and Sell website under the heading "[Dispute Resolution](#)".

---

## ANNEX "A"

### Part 1 - Requirement

Aviation Security Operations, on behalf of Transport Canada, has a requirement for the supply of one gas chromatograph (GC) system (hereafter referred to as the "System") including any necessary supplemental items and related onsite installation and training, which must meet all of the mandatory technical requirements as specified below.

#### 1.0 Standards

The System must meet all applicable standards of the Canadian Standard Association (CSA), Underwriters' Laboratories of Canada (ULC), the American society of engineering (ASME), and the Canadian Registration Number (CRN) throughout the contract period. Additionally a copy of the certifications must be provided at time of delivery.

#### 2.0 Manuals

The Contractor must deliver 1 complete set of Documentation, in English with the deliverables.

This Documentation must include all publications pertaining to technical specifications, installation requirements and operating instructions.

#### 3.0 Technical Requirement

- a. The system must include a dual mode gas chromatograph with electron capture detection GC-ECD which includes accommodation for two capillary columns.
- b. The system must include two electron capture detection (ECD) detectors which must detect a minimum of 100 picograms of explosives as listed in method EPA 8095.
- c. The system must include two injection ports,
- d. The system must have an Auto injector which must accommodate 1 to 100 microlitre glass syringes at the same time and inject up to a maximum of 50 microlitres and minimum of 0.1 microlitres;
- e. The system must include an auto sampler which accommodates up to 20 vials;
- f. The system must include programmed temperature vaporization (PTV) split and splitless injection ports, 100 deactivated direct injection port liners; The PTV split and splitless capillary injection ports must have a maximum operating temperature of at least 350°Celsius and must accommodate gas chromatograph columns from a minimum of 0.2 (mm) to 0.530 (mm) ID
- g. The system must have a column oven that must provide a temperature ramp rate between 20°Celsius per minute and 110°Celsius per minute
- h. The system must be provided with 25 syringes, that are sized 1 to 100 microlitre and inject up to a maximum of 50 microlitres and minimum of 0.1 microlitres, suitable for use in the auto sampler
- i. The system must have a Multiple ramp oven which includes up to 6 temperature programming ramps that can be programmed up to a maximum of 200°C;
- j. The system must have *Cool On-Column (COC)* injector;
- k. The system must include 4 capillary columns each, 16 columns in total, with the following specifications:
  - 1 6 m x 0.53-mm ID fused-silica, coated with 5% diphenyl - 95% dimethylsiloxane (HP-5, or equivalent), 1.0-µm film thickness.
  - - 15 m x 0.53-mm ID fused-silica, coated with 5% diphenyl - 95% dimethylsiloxane (HP-5, or equivalent), 1.0-µm film thickness.
  - - 6 m x 0.53-mm ID fused-silica, coated with 100% trifluoropropyl methylpolysiloxane (Restek RTX-200 or equivalent), 0.5-µm film thickness.
  - - 15 m x 0.53-mm ID fused-silica, coated with 100% trifluoropropyl methylpolysiloxane (Restek RTX-200 or equivalent), 0.5-µm film thickness.
- l. The system must be able to handle nitrogen, helium or hydrogen as carrier gas;

- m. The system must be able to detect a gas leak and shutdown automatically when using hydrogen as a carrier gas;
- n. The system must include a computer with a minimum 16 gigabyte RAM, 500 gigabyte hard drive, and a monitor,
- o. The system must include a computer which includes a Local area network (LAN) interface;
- p. The system must include operating software which must have automated peak area calculations;

### 3.1 Deliverables

The Gas Chromatograph system must include but is not limited to the following components:

Item Description	Quantity
Gas chromatograph and including any necessary supplemental items	1
Auto sampler and manual glass syringes as specified in the technical requirements;	25
Set of capillary column installation tools;	1
Cylinder installation parts (regulator, tubing, fittings, in-line purifier);	1
Ferrules and springs box/pack for <i>On-Column</i> injection	1
High temperature low bleed GC septa (100) ;	100
Disposable, 0.45-micron (Millex SR or equivalent), cartridge filters or equivalent;	100
Plastic disposable syringes, 3-ml in size;	100
Deactivated direct injection port liners	100

### Delivery Schedule:

Item	Description	Firm Delivery Date
1	One gas chromatograph system including any necessary supplemental items required that meets all the minimum essential technical requirements as described in Annex A	To be delivered by March 31 <sup>st</sup> , 2021
2	Installation	To be completed by June 30 <sup>th</sup> , 2021
3	Training	To be completed by September 30 <sup>th</sup> , 2021

### 4.0 Service

The Contractor must provide technical support of the system in accordance with supplemental general conditions 4001 (2015-04-01), Hardware Purchase, Lease and Maintenance; Return to depot.

Response for service must be within 24 hours or less.

## 5.0 Optional Renewal Extended Warranty and Maintenance Service

The Extended Warranty and Maintenance Services must include all labour, parts, related expenses and preventative maintenance and technical support within the extended maintenance service.

### Scope of Extended Warranty and Maintenance Service

In addition to 4001 (2015-04-01), Hardware Purchase, Lease and Maintenance, the Contractor must provide all technical services necessary to maintain the safety, operational capabilities and performance of the instrument, including but not limited to:

- All corrective maintenance, preventive maintenance, diagnostics, calibration, and performance verification;
- All tools and parts required in provision of Maintenance Service activities;
- All software upgrades and patches
- Any specialized, unique or proprietary tools required to maintain, calibrate, repair

### Calibration and Preventive Maintenance

The Contractor must perform all diagnostic, calibration and preventive maintenance services for the Instrument.

This must include at least one calibration and preventive maintenance service in each year of the Extended Maintenance Service period.

Preventive Maintenance must include all procedures required for the purpose of maintaining the equipment in a satisfactory operating condition, e.g. systematic inspection, detection, and correction of incipient failures either before they occur or before they develop into major defects.

### Technical Support

The Contractor's Help Desk must respond on business days from 8:00 to 5h00 to notifications.

The Contractor's response to the Technical Authority must include steps to understand the nature of the problem.

The Contractor must offer suggestions that could restore the Instrument or safe ways to rectify or correct the trouble reported.

The Contractor, if requested by Canada to do so, must replace, repair or correct, at its own option and expense any work that becomes defective or fails to conform to the requirements.

Canada must pay the transportation cost associated with returning the Work or any part of the Work to the Contractor's plant for replacement, repair or making good, and the Contractor must pay the transportation cost associated with forwarding the replacement or returning the Work or part of the Work when rectified to the delivery point specified in the Contract or to another location as directed by Canada.

## 6.0 Installation

On-site installation must be provided and must be carried out by a qualified service technician.

All deliverables must be delivered, installed, integrated, and configured by the Contractor at the location specified in the Contract.

The Contractor must unpack, assemble, and install the deliverables at the site. If applicable, this must include but not be limited to the provision of required moving and installation resources, including but not limited to packing material, vehicles, cranes, personnel, and floor protection panels.

The Contractor must supply all associated materials required to effect complete installation, integration and configuration of the deliverables at the site. This must include but not be limited to all the required power connectors, cables, vent line to fume hood, and any ancillary items required to install, integrate and configure the deliverables.

The contractor must complete the Initial set-up, configure and calibrate the unit.

Upon successful completion of the installation, integration and configuration of the deliverables, the Contractor must provide the Technical Authority with written notification that the deliverables are ready for testing.

The Contractor must maintain all work areas at the installation site(s) in a clean and tidy condition on completion of each day's work and on completion of acceptance, including the removal and disposal of all related packing material.

Installation must start within 3 months of delivery and must be completed within 14 calendar days from the installation start date.

#### **7.0 Training**

The Contractor must provide onsite training to the Client in English on use/maintenance of the equipment, and use of the software.

Training will be provided for the following audience:

End User (up to 2): Training must include operation and manipulation of the equipment. The training should include but not be limited to product functionality, product features and limitations.

The Contractor's training must be completed shortly after delivery no later than 6 months after delivery and acceptance and at a time that is mutually agreed upon by the supplier and the technical authority.

#### **8.0 Delivery Address**

12 Montreal Rd Building M-12  
Vanier, ON K1L 6E8

### Part 2.1 - MANDATORY TECHNICAL EVALUATION CRITERIA

The following requirements are the mandatory technical evaluation criteria which will be evaluated during the Bid Evaluation. In addition the Contractor will be required to meet all of the mandatory technical requirements for the duration of the Contract

Bidders are requested to cross reference the mandatory technical criteria in a concise format by using page, paragraph(s) & sub-paragraphs as applicable to their supporting technical documentation.

ITEM	CRITERIA	REFERENCE TO SUBSTANTIATION IN THE TECHNICAL BID.
1	The system must include a dual mode gas chromatograph with electron capture detection GC-ECD which includes accommodation for two capillary columns	
2	The system must include two electron capture detection (ECD) detectors which must detect a minimum of 100 picograms of explosives as listed in method EPA 8095.	
3	The system must include two injection ports	
4	The system must have an Auto injector which must accommodate 1 to 100 microlitre glass syringes and inject up to a maximum of 50 microlitres and minimum of 0.1 microlitres	
5	The system must include programmed temperature vaporization (PTV) split and splitless injection ports, 100 deactivated direct injection port liners; The PTV split and splitless capillary injection ports must have a maximum operating temperature of at least 350°Celsius and must accommodate gas chromatograph columns from a minimum of 0.2 (mm) to 0.530 (mm) ID	
6	The system must have a column oven that must provide a temperature ramp rate between 20°Celsius per minute and 110°Celsius per minute	
7	The system must have a Multiple ramp oven which includes up to 6 temperature programming ramps that can be programmed up to a maximum of 200°C	
8	The system must have Cool On-Column (COC) injector	
9	The system must include 4 capillary columns each, 16 columns in total, with the following specifications: <ul style="list-style-type: none"> <li>• 1 6 m x 0.53-mm ID fused-silica, coated with 5% diphenyl - 95% dimethylsiloxane (HP-5, or equivalent), 1.0-µm film thickness.</li> <li>• - 15 m x 0.53-mm ID fused-silica, coated with 5% diphenyl - 95% dime thylsiloxane (HP-5, or equivalent), 1.0-µm film thickness.</li> <li>• - 6 m x 0.53-mm ID fused-silica, coated with 100% trifluoropropyl methylpolysiloxane (Restek RTX-200 or equivalent), 0.5-µm film thickness.D</li> <li>• - 15 m x 0.53-mm ID fused-silica, coated with 100% trifluoropropyl methylpolysiloxane (Restek RTX-200 or equivalent), 0.5-µm film thickness.</li> </ul>
