AMENDMENT 001

HEIGHT ADJUSTABLE WORKSTATIONS AND DUAL ARM MONITORS

This amendment is raised to answer questions with regards to this Request for Proposal.

Question 1:

The client really needs new work surfaces. (The cost in bracketry to pull two and three surfaces together might be as much as a new top). Would the client consider a proposal for all new tops?

Answer 1:

No. The surfaces are in good shape, they still have plenty of life in them and as an environmentally minded crown Agency we would prefer not to dispose of them.

Question 2:

Merging these surfaces is dangerous as it creates pinch points because the surfaces were meant to be flush up against a panel or each other in some cases. Would the client consider a proposal for all new tops?

Answer 2:

All of the work surfaces would be fused together so there wouldn't be any pinch points. See answer 1.

Question 3:

Can a CAD plan be provided of all the existing panels and/or can we know what systems they are?

Answer 3:

We do not have CAD drawings of our existing panels. We believe the furniture is all Teknion product. It's at least two or maybe 3 different model generations.

Question 4:

The implementation obstacles are unknown unless we can get pictures of what it looks like underneath. Some systems have built-in cantilevers or support bars which could affect leg installation. Can pictures be provided?

Answer 4:

See pictures below.
