THIS AMENDMENT 011 IS RAISED TO ANSWER THE FOLLOWING BIDDER'S QUESTION:

QUESTION 1:

Regarding MT10, MT11, MT12, MT13 of the NCA Project Delivery RFP EN439-211126

For Work Stream 4, PSPC is seeking 4 highly specific and specialised resources all of whom should be experts in their respective fields. For example, the tasks associated with the Architect/Engineer as noted in the Statement of Work, definitely call on that resource to being able to "stamp" drawings. For all of the positions in their respective mandatory element there is the requirement for a Certification in the related discipline. We understand that for the Project Managers, the desire is for the resources to hold PMPs, but for these specialised resources, the most important certification is that of either being a Professional Engineer or Architect first and foremost. As such we ask, that for all of the positions noted in Workstream 4, that PSPC accept the resource as being a professional architect or engineer in good standing and that their professional designation also satisfy the "active certification in the related discipline"? Again, this additional requirement is just reducing the number of highly qualified resources that could be forward for this Stream.

ANSWER 1:

Refer to the updated ATTACHMENT 2 TO PART 4, TABLE 1, MANDATORY TECHNICAL CRITERIA (MT) as per Amendment 009.

OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
