

## **Question & Answer #4**

### **Question 27:**

I'm just confirming that this opportunity is for Canada-based companies only – or 80% of the individuals (or more) must be based in Canada based on Summary part 1.2.f.

Please let me know if this is in fact the case, as it would disqualify our organization from bidding (our services would be delivered by less than 80% of Canadian-based individuals).

Answer 27: Canada will ease up on this requirement – Please see amendment #4. Canada will not be responsible for any associated travel and accommodation costs and that is solely the responsibility of the contractor.
