

THIS AMENDMENT 002 IS RAISED TO ANSWER THE FOLLOWING BIDDER'S QUESTION:

Question # 1:

Are the prototypes under Mandatory Technical Criterion M2 to have any specific graphic design?

Answer: No, the prototypes provided under Mandatory Technical Criterion M2 need not have any specific graphic design. The criterion is that the bidder provides a visual or a prototype of print vinyl stickers created by the bidder.

Question # 2:

Are the prototypes under Mandatory Technical Criterion M3 to be printed or just the material?

Answer: In order to perform the permanence of colour in the testing program criteria (see Attachment 2 to Part 4, testing program window sticker in the Request for Proposal), something must be printed on the prototype.

Question # 3:

We are a screen printing manufacturer. Is screen printing an acceptable printing method? Could the white laminated material be replaced with an opaque white ink?

Answer: Any printing method that complies with the mandatory testing criteria will be considered.
