Description of Work:

The Department of Industry (also known as Innovation, Science and Economic Development (ISED) Canada) works with Canadians in all areas of the economy and in all parts of the country to improve conditions for investment, enhance Canada's innovation performance, increase Canada's share of global trade and build a fair, efficient and competitive marketplace.

This includes managing Canada's airwaves and overseeing its bankruptcy, incorporation, intellectual property and measurement systems; providing financing and industry research tools to help businesses develop, import and export; encouraging scientific research; and protecting and promoting the interests of Canadian consumers.

The mandate of the Chief Information Office (CIO) branch of the Digital Transformation Services Sector, of ISED is to maximize ISED's business performance through modern and progressive management of information technology (IT) services, policies, and resources. The CIO Branch is specifically responsible for:

- Establishing IM/IT strategies and policies that support the overall mandate of the Department and are consistent with established funding envelopes;
- Aligning IM/IT resources with departmental priorities and IM/IT plans through a practical governance structure;
- Providing high-quality, affordable IM/IT services to departmental business partners;
- Providing high-quality and responsive support to departmental IM/IT users;
- Establishing department-wide technology standards and architecture to maximize opportunities for horizontal investments in IM/IT across the department; and
- Directing and supporting a program of IM activities to ensure the effective and efficient management of information within Innovation, Science and Economic Development Canada.

The Digital Services Division (DSD) is responsible for the development of solutions and applications as well as the maintenance of existing systems to support ISED business units. Services are delivered through the following organizational directorates:

- Business Line Solutions (BLS)
- Research, Development and Analytics (RDAD)
- Digital Platforms (DPD)
- Architecture Services (ASD)

As part of the Digital Government for Business program's vision to leverage modern digital and data technologies, create a seamless web and mobile experience, modernize our service delivery and make it easier for Business to access government programs and services, ISED has established the DTSS Program Delivery Centre of Excellence (CoE) under the Architecture Services Directorate to support, maintain, and onboard programs onto the Salesforce platform. This CoE will require ongoing growth of Salesforce Application development expertise and state of the art application development processes and techniques.

The DTSS Program Delivery Centre of Excellence (CoE) team provides guidance in development, builds frameworks, and provides support to the Salesforce Enterprise CRM platform across ISED.

- Bidders must submit a bid for all resource categories
- The work is currently being performed by Lumina IT Inc.
