Solicitation Amendment 001 is being raised to answer bidder questions, as follows:

Question 1: For the above mentioned standing offer, I have an inquiry relating to Annex C1 and C2. It has been requested that the bidder must provide the necessary documentation to support compliance that we have the required equipment in our fleet. Would a listing of all owned equipment that meets this criteria suffice for this requirement?

Answer 1: As long as the equipment list provided has documentation stating its compliant with all standards then it would be sufficient. This would include boom inspections, vehicle certification and or CSA for the rigging being used. This would be required upon request.

Question 2: In TABLE 2: Other Equipment, item number 21 (pg 34 of 42) can please describe what is meant by supplying a "Container Spreader"? We believe it may be either a spreader beam, reach-stacker/container handler, or container lifting hooks that are piece of specialized rigging for attaching slings to a shipping container.

(the following images were provided by the bidder for clarification)

SPREADER BEAM

REACH STACKER

CONTAINER HOOKS

Answer 2: You are correct in stating spreader beam, reach-stacker/container handler, or container lifting hooks. As long as the equipment used is compliant with the task of lifting shipping containers.

All other terms and conditions remain unchanged.
