All instructions, clauses and conditions identified in the Request for Standing Offers (RFSO) by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that Offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Offerors. Enquiries not submitted in a form that can be distributed to all Offerors may not be answered by Canada.

2.4. Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in Alberta.

Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Offerors.

2.5. Bid Challenge and Recourse Mechanisms

2.5.1. Several mechanisms are available to potential suppliers to challenge aspects of the procurement process up to and including contract award.

2.5.2. Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority. Canada's [Buy and Sell website](#), under the heading "[Bid Challenge and Recourse Mechanisms](#)" contains information on potential complaint bodies such as:

- Office of the Procurement Ombudsman (OPO)
- Canadian International Trade Tribunal (CITT)

2.5.3. Suppliers should note that there are strict deadlines for filing complaints, and the time periods vary depending on the complaint body in question. Suppliers should therefore act quickly when they want to challenge any aspect of the procurement process.

ANNEX A

STATEMENT OF WORK

1. Background

This Standing Offer Agreement is required for traffic control services in seven (7) work locations throughout the mountain parks region as detailed below.

Both Non-Urgent services - planned work with a response required with 24 hours' notice - and Urgent services - response required within 2 hours - will be required in each of the seven (7) regions.

In the majority of these work zones average traffic volumes exceed 3000 vehicles per day in the winter and over 11,000 vehicles a day during peak summer months. Some of the work areas include portions of the Trans-Canada Highway which is an essential domestic and international trade route for billions of dollars of goods annually. These are busy highways that often see rapid changes in weather and road conditions, and traffic control companies must be adequately equip and trained to effectively manage the volume of motorists and changing conditions in the mountain parks region.

Throughout each of the work locations there are systems in place to deal with snowfall, slippery roads, avalanche hazards, mud slides, rock fall and vehicle accidents. Part of those systems involve the need for traffic control to ensure that the travelling public stay out of, or travel safely through identified work zones, for their own safety and the safety of our employees and protected spaces.
