Proposals will not be evaluated if the Bidder's current or past corporate or other interests may, in the GLPA's sole opinion, give rise to a conflict of interest in connection with the project described in this RFP. This includes, but not limited to, involvement by a Bidder in the preparation of this RFP. If a Bidder is in doubt as to whether there might be a conflict of interest, the Bidder should consult with the Contract Administrator prior to submitting a proposal.

- e) The successful Bidder warrants that, to the best of its knowledge after making diligent inquiry, no conflict exists or is likely to arise in the performance of the Contract.
- f) Should such a conflicting interest be acquired during the life of the Contract, the successful Bidder shall declare it immediately in writing to the GLPA. The successful Bidder acknowledges that if the GLPA is of the opinion that a conflict exists as a result of the successful Bidder's disclosure or as a result of any other information brought to the GLPA's attention, the GLPA may require the successful Bidder to take steps to resolve or otherwise deal with the conflict or, at the GLPA's entire discretion, terminate the Contract for default.

11. NON-COLLUSIVE CERTIFICATION

Bidders must not attempt to communicate directly or indirectly with any employee, contractor or representative of the GLPA, including the evaluation team, or any Board of Director, or with the media, about the project described in this RFP or otherwise in respect of this RFP, other than as expressly directed or permitted by the GLPA.

14. COLLECTION AND USE OF PERSONAL INFORMATION

Bidders are solely responsible for familiarizing themselves with, and ensuring that they comply with, the laws applicable to the collection and dissemination of information, including but not limited to resumes and other personal information concerning employees of the Bidder and employees of any sub-contractors. If this RFP requires Bidders to provide the GLPA with personal information of employees who have been included as resources in response to this RFP, Bidders will ensure that they have obtained written consent from each of those employees before forwarding such personal information to the GLPA.

Such written consents shall specify that the personal information may be forwarded to the GLPA for the purposes of responding to this RFP and may be used by the GLPA for the purposes set out in this RFP. The GLPA may, at any time, request the original consents, or copies of the original consents, from the Bidder and, upon such request being made, Bidders will immediately supply such originals, or copies if so requested, to the GLPA.

15. BID PREPARATION INSTRUCTIONS

It is requested that bidders provide their bid in separately bound files as follows:

File I: Proof of compliance with the mandatory requirements, Technical Bid, and completed page 1 of the RFP Document.

File II: Financial Bid

Prices related to the current solicitation must appear in the financial bid only and are not to be indicated in any other section of the bid; prices referenced in the financial bid should not be repeated in any other section of the bid.

No payment shall be made for costs incurred by the Bidder in the preparation and submission of a proposal in response to this RFP.

All fees, associated with the transfer of data or all documents as may be required by the GLPA as part of the solicitation process, are the responsibility of the Bidder. No costs incurred by the Bidder before receipt of a signed contract or specified written authorization from the Contract Administrator can be charged to any resulting contract.

Technical Bid

In their technical bid, bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders must demonstrate their capability in a thorough, concise and clear manner for successfully carrying out the work as described in *Annex A – Statement of Work*.

Bidders must respond to the GLPA bid solicitation in an honest, fair and comprehensive manner, accurately reflect their capacity to satisfy the requirements stipulated in the bid or contract documents, and submit bids and enter into contracts only if they will fulfill all obligations of the contract.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient and may result in a loss of points. In order to facilitate the evaluation of the bid, the GLPA requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, Bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

It is the responsibility of the Bidder to obtain clarification of the requirements contained in the RFP, if necessary, prior to submitting a proposal. The Bidder must provide sufficient details in its proposal to substantiate compliance with what is required; all professional experience must be fully documented and substantiated in the proposal.

Page 1 of the RFP Document

It is requested that all Bidders complete, sign and date Page 1 of this RFP (including the name of the submitting organization, the name of the authorized signing person, appropriate addresses, telephone and facsimile numbers, email address and business contact) prior to submitting their proposal. As the signature indicates a clear acceptance of the terms and conditions set out in the RFP, it is the Bidder's responsibility to ensure that the signatory has the authority within the organization to commit the Bidder by making such a contractual offer.

Per article 1 of Part 2, the Bidder hereby agrees, by submitting his/her proposal in response to this RFP, to all the instructions, terms, conditions and clauses detailed herein.

All members of the evaluation team will be required to sign an Oath of Confidentiality, a Financial Disclosure Form, and Potential Conflict of Interest Form.

2. RIGHTS OF GLPA

The GLPA reserves the right to:

- Seek clarification or obtain verification of statements made in a proposal;
- Reject any or all proposals received in response to the bid solicitation;
- Enter into negotiations with bidders on any or all aspects of their proposal;
- Accept any proposal in whole or in part without prior negotiation;
- Cancel the bid solicitation at any time;
- Reissue the bid solicitation;
- Verify any or all information provided by the Bidder with respect to the solicitation including references;

- Discontinue the evaluation of any proposal which is determined, at any stage of the evaluation process, to be non-responsive.

3. BASIS OF SELECTION

Only those bids that are deemed to be responsive (compliant) will be evaluated under the basis of selection:

Highest Combined Rating of Technical Merit and Price

The GLPA intends to award the contract to the responsive (compliant) Bidder with the highest combined rating of technical and financial proposals. In the case of a tie in the combined score among the Bidders, the tie breaker will be the Bidder with the higher score in the Technical Proposal. See the following table for an example of the rating results.

In evaluating the scoring, the score to be ascribed to the technical merit and the price determination shall be determined by the evaluation team in its sole discretion given that these are often subjective matters, that there is no requirement on the part of the GLPA to use any formulas or mathematical approach and that the GLPA's opinion and assessment of each Proposal is to be determined by the GLPA in its sole and absolute discretion.

Example of 70% Technical Merit and 30% Price Determination			
	Bidder 1	Bidder 2	Bidder 3
Technical Points Awarded *	50	55	45
Total Tender Price	\$2,000	\$1,800	\$1,500
CALCULATIONS			
	Weighted Technical Points	Weighted Price Points **	Total Points
Bidder 1	50	$\$1.5/\$2.0 * 30\% = 22.5$	72.5
Bidder 2	55	$\$1.5/\$1.8 * 30\% = 25.0$	80.0
Bidder 3	45	$\$1.5/\$1.5 * 30\% = 30.0$	75.0
* Based on the possible 100 points awarded weighted to 60			
** Based on the lowest priced proposal			

The winner is the Bidder scoring the highest total point as a result of applying the denominators explained above. Based on the above calculations, a contract would be awarded to Bidder 2.

4. CONTRACT AWARD NOTICE / BIDDER PROPOSAL EVALUATION DEBRIEFING

A Contract Award Notice will be prepared and published on the Government Electronic Tendering Services hosted by Public Works and Government Services Canada's website <https://www.buyandsell.gc.ca> within 15 days after the award of the contract. ANNEX A – STATEMENT OF WORK

Background

The Great Lakes Pilotage Authority (GLPA) is a Crown Corporation, established in February 1972 pursuant to the *Pilotage Act*, with a mandate to establish, operate, and administer a safe and efficient pilotage services within the Canadian waters of the Great Lakes-St. Lawrence Seaway system. The GLPA's head office is in the City of Cornwall, Province of Ontario. The GLPA aspires to adopt best practices in the areas of governance, risk, and control consistent with the Financial Administration Act ("FAA"). A key pillar of this is the maintenance of an independent and effective internal audit function. The GLPA is required to conduct at least one internal audit per year, and, as such, its current Risk based audit plan was developed based on these minimum requirements.

Scope

In order to ensure access to knowledgeable and skilled internal audit resources, the GLPA has chosen to outsource its internal audit function.

Under the leadership of Chief Financial Officer ("CFO"), the Contractor may be required to work on all phases of advisory and internal audit engagements. Such engagements will be related to a variety of areas, including, but not limited to:

- Enterprise risk management;
- Risk based audit planning;
- Compliance audits;
- Operational audits;
- Financial audits; and
- IT audits.

The Contractor may also be requested to work on any ad hoc audit or advisory engagement requested by the CFO or the Audit Committee.

Audit engagements, as stated in Annex B, are anticipated to be performed within 15 to 25 person days, depending on the scope of the individual internal audits. The Refresh of the Risk Based Audit Plan is anticipated to be performed within 7 to 10 person days. The anticipated number of person days to complete the follow-up of recently completed audits cannot be determined as this time. For the purpose of this proposal, the Contractor is to assume each engagement can be performed within 3-4 person days.

The Contractor will report administratively to the Chief Financial Officer and functionally to the Board of Directors through the Audit Committee.

The expectation of the Board of Directors is that there will be proactive recommendations based upon both internally and externally generated observations but with a clear benchmarking of practices against external "best practices".

Deliverables

The Contractor will provide regular progress reports on the internal audit plan delivery.

For each internal audit, the following will be made available to the GLPA:

- a) an audit plan including a detailed schedule of work;
- b) a briefing deck and/or draft report on preliminary findings to brief the Chief Financial Officer (CFO) and the Chief Executive Officer (CEO);
- c) a final report and/or deck of findings and recommendations to be presented to the CFO and CEO; and
- d) a final presentation deck to be presented to the Audit Committee.

The final presentation and report of findings should include the following sections, at a minimum:

- a) objectives of the internal audit;
- b) description of processes and procedures;
- c) major findings, and
- e) additional findings and recommendations.

Documents and working papers are to be prepared in accordance with the Institute of Internal Auditors (IIA) professional standards.

Approach and Methodology

The Contractor will be required to conduct all internal audit engagements consistent with IIA standards.

The Contractor may be required to deliver services including, but not limited to:

Integrated Risk Based Audit Plan

- Develop an integrated, risk-based, three (3) year audit plan in consultation with GLPA's Senior Management and Audit Committee; and
- Annually update the audit plan to ensure it reflects GLPA's evolving environment and audit priorities.

Internal Audit or Advisory Engagements

- Prepare and present progress reports on internal audits and management action plans to GLPA's Senior Management and annually to the Audit Committee;
- Prepare and submit detailed work plans identifying team members, budgets, and timelines to the CFO for approval;
- Execute audits under prescribed best business practices and relevant professional auditing standards;
- Prepare and present reports on findings and recommendations to Senior Management and the Audit Committee; and
- Attend Audit Committee meetings, as required.

Internal Audit Plan 2021-2023

The GLPA currently has a Risk Based Audit Plan for 2021-2023. See Annex B for further details.

ANNEX B – Internal Audit Plan 2021-2023

Planned Engagement	Preliminary Objective	Preliminary Scope
Occupational Health and Safety (Fiscal 2021) (May to Aug)	To provide assurance and/or advisory services regarding the GLPA's Health and Safety management control framework, including compliance with applicable legislation, regulations, and policies.	That the policies and procedures in place within the GLPA ensure the safety and wellbeing of employees, including pilots and contractors. The scope will focus on higher risk groups (i.e. Pilots).
Rationale for the Audit		
Many of the GLPA's employees and contractors work in potentially hazardous conditions (i.e. docks, boarding various types of vessels, etc.). This engagement will help determine if the GLPA has established processes and activities to support the safety and wellbeing of employees and contractors, and it fully complies with application legislation and regulations.		
Planned Engagement	Preliminary Objective	Preliminary Scope
Strategic Planning Processes (Fiscal 2021/2022) (Oct to Feb)	To provide assurance and/or advisory services regarding the GLPA's strategic planning processes and capabilities. Specifically, it will examine the extent to which the strategic planning processes adequately, effectively and efficiently support clear direction/decision-making and the achievement of intended results.	That the processes, practices, and tools, including governance/ decision-making process and activities are effectively established and in place to develop meaningful strategic objectives and deliver the desired outcomes. This is to consider internal and external communication processes, and the assessment of information (e.g. environmental scans) in support of the strategic planning process. To consider benchmarking of industry best practices for similar sized organizations.
Rationale for the Audit		
External environmental factors (i.e. changing technology, political situations, market demands, etc.) can have a significant impact on the service demands and financial health of the GLPA. Further, the GLPA operates in a relatively unique environment and where there is a risk that operational and business functions can become "siloeed". This engagement will help assess the extent to which strategic planning and decision-making processes effectively and efficiently consider external factors, are supported by an effective governance structure (e.g. consider input from the Board of Directors, Sr. Management, and external stakeholders), and efficient and effective decision-making.		

Planned Engagement	Preliminary Objective	Preliminary Scope
Human Resources Planning (Fiscal 2022) (Jul to Nov)	To provide assurance and/or advisory services to assess the extent to which the GLPA's HR planning activities are appropriate to identify, recruit and retain sufficient HR capacity (office personnel and pilots) to maintain adequate service levels to customers.	That processes include appropriate oversight/direction, decision-making, succession planning, recruitment, retention and performance management considerations.
Rationale for the Audit		
The GLPA faces ongoing capacity management challenges both in terms of pilots and executive management. This engagement will help ensure that HR planning processes and activities are adequate, effective, and reflect appropriate leading practices to forecast, recruit and retain needed capacity. Further, this engagement will support follow-up HR planning needs in response to the Organizational Optimization Review recently undertaken by the GLPA.		
Planned Engagement	Preliminary Objective	Preliminary Scope
Contract Monitoring and Management (Fiscal 2023) (Apr to Nov)	To provide assurance and/or advisory services related to the GLPA's contract monitoring and management practices as they support value for money.	That processes employed by the GLPA to monitor and record the performance of contractors, potentially including regular monitoring activities (i.e. spot checks, meetings, etc.), disciplinary procedures, and use of contractor performance information for decision-making.
Rationale for the Audit		
The GLPA is reliant on third party service providers for various aspects of its operations. This engagement will help ensure that its contract monitoring, and management processes are effective to assess and respond to contractor performance, so that customer service is not negatively impacted and that the GLPA receives value for money.		
Planned Engagement	Objective	
Refresh the Risk Based Audit Plan (Once or Twice Annually)	To comply with the Internal Audit Standards to update the Risk Based Audit Plan by reviewing and potentially revising the audit universe to ensure it continues to adequately represent the organization. This would be followed by updating the environmental context and risk assessment through a review of up-to-date corporate documentation, as well as interviews with senior management and members of the Board of Directors. Based on the results from the updated risk assessment, a decision is then to be made whether the planned engagements should proceed, or whether another engagement should be undertaken instead of a planned engagement.	
Planned Engagement	Objective	
Follow-up of Recently Completed Audits (Timing to be Determined)	To ensure management action plans have been undertaken by the GLPA in response to recommendations provided in recently completed audits. This engagement will help ensure that those identified risks have been mitigated to an acceptable level by management through the implementation of management action plans.
