Client Reference No.:
1524

Title:
Repairs of the Gauron and Lafleur Bridges, Lachine Canal National Historic Site

Amendment 004

The following is hereby amended:

- A. Answer questions from bidders;

A. QUESTIONS AND ANSWERS

- Q1. Specification 01353-2 specifies that we must maintain a 3.8m track on the Gauron bridge. Considering its width of 7.62m, work will never be covered by the long-term closure, so must be done in full closure. Considering this information, are any special types of concrete to be expected? Other constraints to be expected?
- A1. Work requiring an overlap must be done during weekend closures.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED
