AMENDMENT 002

The purpose of amendment 002 is to provide answers to the questions raised by the industry during the request for proposal period, extend the closing date of the request for proposal and modify some terms and conditions to the solicitation document.

1.0 Questions raised by the industry during the request for proposal period

Q1: For clarification, should questions and enquiries for the Solicitation W7701-217378/A "Imaging Gas Filter Correlation Radiometric (iGFCR) Sensor Design and Development" be addressed to Jonathan Hamel or Sonia Beauchesne?

Mr. Hamel is mentioned on the cover page, but the name and address given in Section 2.4 is Mrs. Beauchesne acting as Contracting Authority.

A1: Julie Desforges will be the contracting authority in replacement of Ms. Sonia Beauchesne. All questions are to be addressed to the contracting authority at email address: Julie.desforges@tpsgc-pwgsc.gc.ca

Q2: "7.7.2 Limitation of Expenditure - Cumulative Total of all Task Authorizations

1. Canada's total liability to the Contractor under the Contract for all authorized Task Authorizations (TAs), inclusive of any revisions, must not exceed the sum of **\$1,300,00.00**". This must be a typo...

Please clarify if the sum is **\$130,000.00** or **\$1,300,000.00**

A2: The correct number at section 7.7.2 is: 1 300 000.00 (One million three-hundred thousands).

Q3: Would you please let us know the intended application for this project?

A3: As stated in the RFP, DRDC is looking to improve their capabilities in the technology of iGFCR. Our goal is to detect and localize very specific gas target at very high sensitivity. DRDC don't have specific application for now but has example possibilities and not limited to detection of hazardous gas (TICs), detection of leaks, etc.

Q4: Would you please let us know the target gas(es)?

A4: No specific gas identified yet but those like SO2, NH3 and TICs are of interest.

Q5: Would you please let us know the intended platform/environment for implementation?

A5: No specific environment identified yet but DRDC see some potential as ground-based sensor, UAVs, airborne platform , etc.

7.7.2 Limitation of Expenditure - Cumulative Total of all Task Authorizations

1. Canada's total liability to the Contractor under the Contract for all authorized Task Authorizations (TAs), inclusive of any revisions, must not exceed the sum of \$ 1,300,00.00. Customs duties are included and Applicable Taxes are extra.
2. No increase in the total liability of Canada will be authorized or paid to the Contractor unless an increase has been approved, in writing, by the Contracting Authority.
3. The Contractor must notify the Contracting Authority in writing as to the adequacy of this sum:
 - a. when it is 75 percent committed, or
 - b. four (4) months before the contract expiry date, or
 - c. as soon as the Contractor considers that the sum is inadequate for the completion of the Work required in all authorized TAs, inclusive of any revisions,

whichever comes first.

4. If the notification is for inadequate contract funds, the Contractor must provide to the Contracting Authority, a written estimate for the additional funds required. Provision of such information by the Contractor does not increase Canada's liability.
