Amendment 001 is raised to modify the Request for Proposal and to answer questions received from industry as follows:

- Respond to questions received from the industry;
- Revise Annex A – Requirement an Basis of Payment, replace Tables 1 – Product Table for the following categories:
 - Category 6B;
 - Category 6C;
 - Category 6D;

1. Questions and Answers

Question 1

Category 6C – Item 1 (GoCUID: 6SBBTWXXBUW3G19LMYN). Would an alternative with integrated arms be acceptable (GoCUID: 6SBATWXXBUW3G19LMYY)?

Answer 1

No, the requirement will remain as is.

Question 2

Category 6C – Item 5 (GoCUID: 6KKCSAxxSY16XXXMIYX). Would an alternative with the material in bent plywood be acceptable (GoCUID: 6KKCSAxxSP16XXXMIYX)?

Answer 2

Yes, we accept polymer and bent plywood. GoCUID 6KKCSAxxSP16XXXMIYX will be accepted.

Please see revised Category 6C - Table 1 – Product Table included in this amendment (001).

Question 3

Category 1A. Where panels are the same size and inline on the workstation floorplan eg, 2x30" wide panels, can we supply one 60" wide panel instead? The same question goes for 2x24" wide panels – can we supply one 48" wide panel instead?

Answer 3

No, the requirement will remain as is.

Question 4

Category 5 – Item 2. Will the Client respectfully also accept 5PMOWKSMTACPWRXXXXX to accommodate the extra AC and USB requirements while still meeting the SA? specification?

Answer 4

No, USB is required.

Question 5

Category 3 – Item 3. Will the Client respectfully also accept an 18"D cabinet?

Answer 5

No, the requirement will remain as is.

Question 6

Category 3 – Item 3. Please confirm it is an electronic lock that's required and not a standard keyed lock.

Answer 6

Yes, an electronic lock is required.

Question 7

Category 6B – Item 6. Since these chairs per plan aren't banquettes will you also accept 6SLCWAXXFUXXXXXMXXX?

Answer 7

Yes, GoCUID 6SLCWAXXFUXXXXXMXXX will be accepted.

Please see revised Category 6B - Table 1 – Product Table included in this amendment (001)

Question 8

Category 6C - item 1. Will the client respectfully also accept an option with legs (GoCUID: 6SBBTWXXLUW3G19LMNN)?

Answer 8

No, the requirement will remain as is.

Question 9

Category 6D - NSA item 3 Tag S1. Please clarify what the technical reason is for a 22.7" seat depth is, this may imply specific manufacture specifications. We respectfully ask the Client to accept a seat depth of 19" - 20" which is within the SA specifications for both modular benching and ganging banquette units.

Answer 9

Description change - "*inside seat depth **must be no less than 483mm (19 inches)***".
Please see revised Category 6D - Table 1 – Product Table included in this amendment (001).

Question 10

Category 6D - NSA item 4 Tag CH7. The requirement for the upholstery to be a manufacturer's grade 5 or above (or approved equivalent) will provide an unfair comparison between manufacturers. The grading of the fabric does not guarantee a certain quality or type of material but rather the cost of the material the manufacture is able to sell it at. Unless there is a specific requirement (e.g. fabric, vinyl, Crypton, double-rub count, etc.) that is required we ask to price out at the standard grade and the client may use the 20% design upgrade rule if they wish to select from other available options.

Answer 10

Bidder must provide a minimum of 10 colour options in vinyl and a minimum of 10 colour options in fabric. Standard grade is acceptable.

Please see revised Category 6D - Table 1 – Product Table included in this amendment (001)

Question 11

Will the shipping location be able to accommodate a 53 foot trailer for the delivery of the goods? If not, what is the maximum truck length the location is able to accommodate?

Answer 11

Yes a full sized 53ft tractor trailer can be accommodated.

Question 12

Is street off-loading required?

Answer 12

No.

Question 13

Category 6A - item #4, is there to be power in this table?

Answer 13

No.

Question 14

Category 6C - item #1, would a +/- variance of 1" be acceptable for the width dimensions?

Answer 14

Please bid as per solicitation.

Question 15

Category 6C- item #5, 6, would a 4 post leg base be acceptable?

Answer 15

No, the requirement will remain as is.

2. Annex A – Requirement and Basis of Payment is deleted in its entirety:

REPLACE BY:

ANNEX A REQUIREMENT and BASIS OF PAYMENT

1. Category Selection

Combined Categories Rule:

For reasons of compatibility, the following categories will be combined for evaluation and contract award purposes:

The rule only applies to the categories below that are checked. The unchecked categories will be evaluated separately and may be awarded to multiple suppliers;

☒ **Category 1**

☒ **Category 2**

☒ **Category 5**

*** Exception: when using the Cat 1, 2, 5 combined categories rule, IU's may calculate the percentage of NSA product allowed (as defined in their solicitation document) against the total quantity of the combined categories.**

Design Upgrade Rule:

The IU may exercise an option to upgrade products up to 20% of each Category product total before Applicable Taxes after contract award.

The Design Upgrade amount is used at the discretion of the Project Authority (PA) **prior to the manufacturing/ordering of the products**, the PA will provide the Contractor with a written notice of Canada's Design Upgrade choices for each of the product(s) to be upgraded. The Contractor will provide the pricing of the upgraded product(s) to a maximum of 20% of each Category Contract Price of Table 8. The Contracting Authority will issue an amendment to the contract with the Design Upgrades and pricing.

The Supplier certifies that all the Design Upgraded products offered will conform to all specifications and meet the testing requirements detailed in the Specifications of the Supply Arrangement.

Design Upgrade: is the process of replacing a product with a more innovative or enhanced version of the same product.

NSA:

NSA products can be incorporated in the RFB and must not exceed 30% of the firm quantity by category. NSA items must be added to the category that is most closely related and must be generic.

The requirement includes the following categories of work:

a. Category 1 – Interconnecting Panels and Freestanding Systems

☒ Category 1a – Interconnecting Panels (Refer to Annex C)

☐ Category 1b – Supporting components and freestanding furniture

RULE: Metal Storage

Identified Users may procure metal storage products forming part of Category 1 when the metal storage products will be part of a requirement for a workstation(s)/work point(s). If this rule does not apply, Category 3 must be used for the metal storage products forming part of this category.

b. ☒ Category 2 – Freestanding Height Adjustable Desk / Table Products

c. ☒ Category 3 – Metal Filing and Storage Cabinets

Identifying the maximum height of the Personal Storage Towers, Wardrobes and Storage Cabinets is acceptable as per 6B. 4.1 of the SA (table 1 Additional product details)

d. ☐ Category 4 – Wood Veneer – Freestanding Products

e. ☒ Category 5 – Ancillary and Lighting Products

f. ☒ Category 6 - Support Space – Collaborative Furniture

RULE: Category 6 can be further subdivided by space or like product in order to increase or allow competition. Space is defined as a location available for a particular purpose such as a meeting room space or a collaborative space. Like products are defined as products with similar design and construction. If NSA products form part of the requirement, the IU must validate the 30% NSA prior to subdividing the category. NSA products can be added to any subdivide or in its own subdivide.

Category 6 is subdivided as follows: Category 6A, Category 6B, Category 6C and Category 6D

g. ☒ NSA Product(s) – Category: 6D

2. Product and Pricing Tables

Site Inspection Date: To be coordinated with Project Authority after contract award. (Refer to Annex A article 4 of the SA for Site Inspection and Documentation instructions.)

INSTRUCTIONS TO BIDDERS: Bidders are to complete Sections B of the tables identified by the IU in this article as well as Tables 8 and 9. **Bidders must provide a complete product offering for each category, or CAT 6 sub-divide they wish to submit a bid in order to be compliant.**

****Refer to article 6A.7 for instructions on how to submit products that are not approved in product listing.****

In a resulting contract, the term “Bid” means the Supplier’s commitment, the term “Bidder” means “Contractor”.

ANNEX C FLOOR PLAN(S)

INSTRUCTIONS TO BIDDERS:

For Category 1a products, the Bidders must provide:

- a) Completed floor plan(s) with proposed SA approved products;*
- b) A product listing of proposed SA approved products offered at floor plan(s).
As a minimum the product listing must include the following information:
 - Supplier part numbers including NSA products forming part of this category;*
 - brief product descriptions;*
 - quantities;*
 - firm unit prices.**

****** Products from categories other than Category 1a shown on floor plan are for information purposes only******

By submitting a bid, the Bidder certifies that their submission includes all components and quantities for Category 1a, in accordance with the floor plans, panel details, panel matrices and/or workstation layouts stipulated in Annex C.

****At contract award, "By submitting a bid, the Bidder" becomes "The Contractor".***

Category 1a Requirement:

1) Floor Plan(s)

****See attached pdf and AutoCAD floor plan****

2) Panel Details

- a. All required panel heights: [Seated Privacy Add-on Height](#);
- b. When power is required, the power is located [below](#) work surface height; should a grouping of workstation types include shared panels and one side is identified as powered and the other side is non-powered, those panels affected must be powered.
- c. Type of power feed: [Power Pole](#).

3) Panel Matrix and Workstation Layout

****See attached Panel Matrix and Workstation Layout****

a. Panel Matrix

****See attached Panel Matrix ****

b. Workstation Layout(s)

****See attached PDF Workstation Layout****

- The floor plan takes precedent over any discrepancies with the workstation layouts.
- When two or more typical workstation types share a common panel spine, the finishes of the interior side of the workstation panel as outlined in the Typical Data Sheets must be followed and **NO PANELS SHALL BE DOUBLED. Where no workstation exists adjacent to typical workstation, refer to Data Sheet for finish.**
- Should one typical workstation identify power and the other does not – power will be required for both. Include Workstation Layouts (in the form of Typical Data Sheets or 3 Dimensional drawings) here or as a separate attachment to this RFB.

ANNEX D
Additional Specifications, Certifications

This Annex includes the additional Specifications, Certifications associated with NSA product forming part of the requirement.

1. Specifications

Category 6D – Items #3 and 4.

2. Certifications

2.1 NSA Product Conformance *(Required precedent to Issuance of a contract)*

The Supplier certifies that all the NSA products offered will conform to all specifications indicated in Annex A and D of the RFB, and meet the testing and performance requirements found at ANNEX A-1 and A-2 of the Supply Arrangement, as applicable.

Supplier's Signature

Date

NSA Product Conformance Certification *(applies after contract award)*

The Supplier warrants that the NSA Product Conformance Certification submitted by the Supplier with its bid is accurate and complete. The Supplier must keep proper records and documentation relating to the NSA product conformance and the testing requirements in this Annex, as applicable. The Supplier must not, without obtaining the prior written consent of the SAA, dispose of any such records or documentation until the expiration of the Contract or the expiry date of the Warranty, whichever is later. All such records and documentation must at all times during the retention period be open to audit, inspection and examination by the representatives of Canada, who may make copies and take extracts.

In addition, the Supplier must provide representatives of the SAA access to all locations where any part of the Work is being performed at any time during working hours. Representatives of the SAA may examine and test the Work as they see fit. The Supplier must provide all assistance and access to facilities, test pieces, samples and documentation that the representatives of the SAA may reasonably require for the carrying out of the inspection, which may also include the submission of test reporting documentation as listed in Annex A and D. The Supplier must forward such test pieces, samples and/or documentation that may also include letters of certification from the laboratories to such person or location as the representatives of the SAA specifies.

All other terms and conditions remain unchanged
