Title:
Infrastructure Master Plan, Programme of the Main Station & Schematic Design of the Weather office, Sable Island National Park Reserve

Amendment 002

The following is hereby amended:

- A. Answer questions from bidders;
- B. Updates to the Solicitation Document;

A. QUESTIONS AND ANSWERS

Question 1

Can you confirm our understanding; which is that engineering services are not required for RS1?

Response:

It is the responsibility of the proponent to assign the team and resources to deliver the scope of services described in RS1.

Question 2

Can you confirm soils and other geotechnical reports will be supplied by the client?

Response:

A geotechnical report will be provided by PCA.

Question 3

In the project brief, it mentions re-using the existing structure, e.g.: the weather station, but then later on (6.2.4.8) it mentions new construction. Can you clarify what the client is anticipating? Renovation? New Build? Renovation but with comparing cost to new build?

Response:

The nature and type of proposed architectural interventions in RS2 will be required to meet the programme established in RS1 and reuse the existing building. Other design options may be considered as part of RS2.

B. AMENDMENT TO INVITATION TO TENDER DOCUMENT

NOT APPLICABLE.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED
