1.6 Transmission by the epost Connect Service

This bid solicitation allows Bidders to use the epost Connect service provided by Canada Post Corporation to transmit their bid electronically. Bidders must refer to Part 2 - Bidder Instructions, and Part 3 - Bid Preparation Instructions, of the bid solicitation, for further information.

PART 2 - BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the Standard Acquisition Clauses and Conditions (SACC) Manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada (PWGSC).

Bidders agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting Contract.

The 2003 (2020-05-28), Standard Instructions - Goods or Services - Competitive Requirements, apply to and form part of the bid solicitation.

Subsection 5.4 - Submission of Bids, of Standard Instructions 2003 (2020-05-28), Goods or Services - Competitive Requirements, is amended as follows:

Delete: sixty (60) days

Insert: 90 consecutive days

All other provisions remain in effect.

2.2 Submission of Bids

Bids must be submitted by the date, time and place indicated on page 1 of the bid solicitation document.

2.3 Transmission by the epost Connect Service

Unless specified otherwise in the bid solicitation, bids may be submitted by using the epost Connect service (https://www.canadapost.ca/web/en/products/details.page?article=epost_connect_send_a) provided by Canada Post Corporation.

The only acceptable email address to use with epost Connect for responses to bid solicitations issued by Public Works and Government Services Canada (PWGSC) Headquarters is: tpsgc.dgareceptiondessoumissions-abbidReceiving.pwgsc@tpsgc-pwgsc.gc.ca, or, if applicable, the email address identified in the bid solicitation.

To transmit a bid using epost Connect service, the Bidder must either:

- a. send directly its bid only to the specified PWGSC Bid Receiving Unit, using its own licensing agreement for epost Connect provided by Canada Post Corporation; or
- b. send as early as possible, and in any case, at least six business days prior to the bid solicitation closing date and time, (in order to ensure a response), an email that includes the bid solicitation Number to the specified PWGSC Bid Receiving Unit requesting to open an epost Connect conversation. Requests to open an epost Connect conversation received after that time may not be answered.

If the Bidder sends an email requesting epost Connect service to the specified Bid Receiving Unit in the bid solicitation, an officer of the Bid Receiving Unit will then initiate an epost Connect conversation. The epost Connect conversation will create an email notification from Canada Post Corporation prompting the Bidder to access and action the message within the conversation. The Bidder will then be able to transmit its bid afterward at any time prior to the bid solicitation closing date and time.

If the Bidder is using its own licensing agreement to send its bid, the Bidder must keep the epost Connect conversation open until at least 30 business days after the bid solicitation closing date and time.

The bid solicitation Number should be identified in the epost Connect message field of all electronic transfers.

It should be noted that the use of epost Connect service requires a Canadian mailing address. Should a Bidder not have a Canadian mailing address, they may use the Bid Receiving Unit address specified in the bid solicitation in order to register for the epost Connect service.

For bids transmitted by epost Connect service, Canada will not be responsible for any failure attributable to the transmission or receipt of the bid including, but not limited to, the following:

- a. receipt of a garbled, corrupted or incomplete bid;
- b. availability or condition of the epost Connect service;
- c. incompatibility between the sending and receiving equipment;
- d. delay in transmission or receipt of the bid;
- e. failure of the Bidder to properly identify the bid;
- f. illegibility of the bid;
- g. security of bid data; or
- h. inability to create an electronic conversation through the epost Connect service.

The Bid Receiving Unit will send an acknowledgement of the receipt of bid document(s) via the epost Connect conversation, regardless of whether the conversation was initiated by the supplier using its own license or the Bid Receiving Unit. This acknowledgement will confirm only the receipt of bid document(s) and will not confirm if the attachments may be opened nor if the content is readable.

Bidders must ensure that they are using the correct email address for the Bid Receiving Unit when initiating a conversation in epost Connect or communicating with the Bid Receiving Unit and should not rely on the accuracy of copying and pasting the email address into the epost Connect system.

A bid transmitted by epost Connect service constitutes the formal bid of the Bidder and must be submitted in accordance with [Section 5](#) - Submission of Bids, of Standard Instructions [2003](#) (2020-05-28), Goods or Services - Competitive Requirements.

2.4 Improvement of Requirement during the Bid Solicitation

Should Bidders consider that the specifications or Annex A - Basis of Payment, contained in the bid solicitation could be improved technically or technologically, Bidders are invited to make suggestions in writing to the Contracting Authority named in the bid solicitation. Bidders must clearly outline the suggested improvement as well as the reason for the suggestion. Suggestions that do not restrict the level of competition nor favour a particular Bidder will be given consideration provided they are submitted to the Contracting Authority at least 5 consecutive days before the bid solicitation closing date. Canada will have the right to accept or reject any or all suggestions.

2.5 Enquiries

All enquiries must be submitted in writing to the Contracting Authority no later than 5 consecutive days before the bid solicitation closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items marked "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the

question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.6 Applicable Laws

The resulting Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

2.7 Bid Challenge and Recourse Mechanisms

Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority.

Several mechanisms are available to potential suppliers to challenge aspects of the procurement process up to and including Contract Award. Information on potential complaint bodies are set out on the [Bid Challenge and Recourse Mechanisms \(https://buyandsell.gc.ca/for-businesses/selling-to-the-government-of-canada/bid-follow-up/bid-challenge-and-recourse-mechanisms\)](https://buyandsell.gc.ca/for-businesses/selling-to-the-government-of-canada/bid-follow-up/bid-challenge-and-recourse-mechanisms) webpage, such as:

- a. Office of the Procurement Ombudsman (OPO); and
- b. Canadian International Trade Tribunal (CITT).

There are strict deadlines for filing complaints, and the time periods vary depending on the complaint body in question.

2.8 Green Strategy

Led by the Centre for Greening Government of the Treasury Board of Canada Secretariat, the Government of Canada will ensure that Canada is a global leader in government operations that are net-zero, resilient and green.

Bidders are encourage to contribute to environmental objectives, such as:
