**This amendment 001 is raised to answer questions received from the industry as follows:**

**Q1:** Chair CA1 – Rotary Task Chair. Lumbar Support – Up/Down & In/Out

Lumbar adjustment is not specified in ergonomic guidelines, such as BIFMA G1 or CGSB 44.232. On the SA specifications in Annex A, “5.5 Lumbar Support Height – must be available as fixed or adjustable” but does not require the lumbar adjustment to be in/out. As this may be a preference for specific people, but not required by all users, can we ask that the in/out specification be considered optional but not mandatory?

**A1:** No. The in/out lumbar adjustment is a mandatory client requirement.

**Q2:** Chair CA1 – Rotary Task Chair. Lumbar Support – Up/Down & In/Out

Will you also accept a lumbar that goes up and down with a simultaneous depth adjustment?

**A2:** No, this will not be accepted.

**Q3:** Chair CA2 – Rotary Conference Chair. Armrests – Fixed.

Would height adjustable arms also be acceptable as well?

**A3:** Yes, height adjustable arms are also acceptable.

**Q4:** Chair CA2 – Rotary Conference Chair. Seat Depth – Fixed-Medium.

Would an adjustable seat depth be acceptable as well?

**A4:** Yes, an adjustable seat depth is also acceptable.

**All other Terms and Conditions remain unchanged.**
