

Amendment 004 Questions and Answers

Q1) Would also like to know if there will be a site visit.

A1) There is no site visit for this project due to COVID-19 restrictions in Ontario.

Q3) There is new bid sheet as ABES.PROD.PW_PWL.B063.E2561.ATTA010 but there is no location for the mechanical work pricing that is in the specification. Please advise if this is still in scope of this RFQ.

Q2) Please include any pricing for work that is in the scope of work and not included in the Unit Price Table in the Lump Sum price.

Q4) The Appendix 5 mentioned triaxial and uniaxial strain gauges.
Is there more information on which style of gauge to use?

A4) The supply and installation of strain gauges is not required on this project. Appendix 5 was included to show the contractor where the localized structural steel coating repairs are required, i.e. at the locations of the strain gauges that were previously installed on the bridge in 2019 and removed in 2020. This is mentioned under item 4 of the Scope of Work section on drawing S-01.

Q5) Do these gauges get installed onto bare steel and then paint system applied and sealed in?

A5) No gauge is required.

Q6) Do these gauges need conditioners installed as well?

A6) No gauge is required.

Q7) Do they need wiring across the bridge installed onto a central position?

A7) No gauge is required.

Q8) Do we include the price of these in the Lump Sum?

A8) No gauge is required.

Q9) The specifications are not showing up on the BuyandSell website. Please look into this.

A9) The revised specs were posted in Amendment 001 on April 9, 2021. You can view them at the following link:
