**Description of Work:**

The purpose of the Work is to develop three Lunar Gateway Utilization complement scenarios (modest, intermediate, and ambitious) that target the business need associated with Gateway Utilization (GU). Each complement must be presented with a set of pros and cons that include an assessment of the level of impact on the desired investment outcomes. Each complement must provide sufficient information (budget, human resources requirements, indicative timeline) to support, in a first instance, the selection of a Gateway Utilization complement, followed by the development of business case for the implementation of a Gateway Utilization portfolio of activities that will compose the said complement.

- Bidders may submit a bid for one or all resource categories.
- Available budget: 275,000.00\$

**Security Requirement:** none  
**Minimum Corporate Security Required:** None  
**Minimum Resource Security Required:** Enhanced Reliability
