PROMPT PAYMENT IN THE CONSTRUCTION INDUSTRY

Prompt Payment Principles

Public Services and Procurement Canada advocates that construction-related payments should follow these three principles:

- **Promptness:** The department will review and process invoices promptly. If disputes arise, Public Services and Procurement Canada will pay for items not in dispute, while working to resolve the disputed amount quickly and fairly
- **Transparency:** The department will make construction payment information such as payment dates, company names, contract and project numbers, publicly available; likewise, contractors are expected to share this information with their lower tiers
- **Shared responsibility:** Payers and payees are responsible for fulfilling their contract terms including their obligations to make and receive payment, and to adhere to industry best practices

5. Where an Offeror is unable to provide any of the certifications required by subsection 4, it must submit with its offer a completed Integrity Declaration Form, which can be found at [Declaration form for procurement](#).
6. Canada will declare non-responsive any offer in respect of which the information requested is incomplete or inaccurate, or in respect of which the information contained in a certification or declaration is found by Canada to be false or misleading in any respect. If Canada establishes after award of the Contract that the Offeror provided a false or misleading certification or declaration, Canada may terminate the Contract for default. APPENDIX 4 – EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

1.1 Technical Evaluation

Mandatory and point rated technical evaluation criteria are included in Appendix 5 – Technical Evaluation Criteria

1.2 Financial Evaluation

Bidders will be assessed based on the information provided, as per Appendix 1 – Price Proposal Form, in accordance with the procedure set out in Appendix 4 – Evaluation Procedures and Basis of Selection.

1.3 Evaluation of Price – Bid

The price of the bid will be evaluated in Canadian dollars, Applicable Taxes excluded, FOB destination, Canadian customs duties and excise taxes included.

2. Basis of Selection

2.1 To be declared responsive, a bid must:

- (a) comply with all the requirements of the bid solicitation;
- (b) meet all mandatory technical criteria;
- (c) obtain the required minimum pass score of sixty (60%) percent of the maximum points available for the technical point rated evaluation criteria;
- (d) submit firm rates and quantities for all categories in the Price Proposal Form; and
- (e) have a price no greater than 1.50 times the average bid prices, unless fewer than three bids are received. If only 2 bids are received, the higher bid price must not be more than 175% of the lower bid price.

Bidders not meeting (a) or (b) or (c) or (d) or (e) will be declared non-responsive.

2.2 To establish the Technical Merit Score (TMS), the overall technical score for each responsive bid will be determined as follows: technical score achieved / maximum points available multiplied by the ratio of **40%**. No further consideration will be given to bidders not achieving the minimum pass score.

2.3 To establish the Total Financial Score (TFS), each responsive bid will be prorated against the lowest Total Evaluated Price (TEP) and multiplied by the ratio of **60%**.

When there are three or more responsive proposals, an average price is determined by adding all the price proposals together and dividing the total by the number of price proposals being opened.

This calculation will not be conducted when one or two responsive proposals are received.

The lowest TEP from all technically responsive bids will score 100 points for the TFS.

The TFS for the other technically responsive bids will be calculated as follows:

Bid's TFS = (lowest TEP from all technically responsive bids) / (bid's TEP) x 100 points

3. Combined Rating of Technical Merit Score and Total Financial Score

3.1 The selection will be based on the combined rating of technical merit score and total financial score. The ratio will be 40% for the technical merit score and 60% for the total financial score.

- 3.2 For each responsive bid, the technical merit score and the total financial score will be added to determine its combined rating.
- 3.3 The two responsive bids with the highest combined rating of technical merit and price will be recommended for award of the standing offers.

The table below illustrates an example where three bids are received and the selection of the contractor is determined by a 40/60 ratio of technical merit score and total financial score, respectively. The maximum available points equals 70 and the lowest total evaluated price is \$100.

	Bidder		
	Bidder 1	Bidder 2	Bidder 3
Overall Technical Score (OTS)	65/70	45/70	55/70
Total Evaluated Price (TEP)	120	Not technically compliant	100
Calculations			
Technical Merit Score (TMS)	$65/70 \times 40 = 37.14$		$55/70 \times 40 = 31.43$
Total Financial Score (TFS)	$100/120 \times 60 = 50.00$		$100/100 \times 60 = 60.00$
Combined Rating	87.14		91.43
Overall Ranking	2nd		1st

APPENDIX 5 – TECHNICAL EVALUATION CRITERIA

In the event the information cannot be verified or the service is found to be unsatisfactory, the offer will be considered non-responsive and no further consideration will be given to the Offeror.

Note: If replacement or additional personnel are proposed after standing offer issuance, they must meet the defined experience level for the category. A résumé and completed relevant project experience form of the proposed personnel will be reviewed by the Departmental Representative and is subject to their approval. APPENDIX 6 – VOLUNTARY CERTIFICATION TO SUPPORT THE USE OF APPRENTICES

(page 1 of 2)

PUBLIC WORKS AND GOVERNMENT SERVICES CANADA APPRENTICE PROCUREMENT INITIATIVE

1. To encourage employers to participate in apprenticeship training, Offerors, bidding on construction and maintenance contracts by Public Works and Government Services Canada (PWGSC) are being asked to sign a voluntary certification, signaling their commitment to hire and train apprentices.
2. Canada is facing skills shortages across various sectors and regions, especially in the skilled trades. Equipping Canadians with skills and training is a shared responsibility. The Government of Canada made a commitment to support the use of apprentices in federal construction and maintenance contracts. Contractors have an important role in supporting apprentices through hiring and training and are encouraged to certify that they are providing opportunities to apprentices as part of doing business with the Government of Canada.
3. The Government of Canada is encouraging apprenticeships and careers in the skilled trades. In addition, the government offers a tax credit to employers to encourage them to hire apprentices. Information on this tax measure administered by the Canada Revenue Agency can be found at: www.cra-arc.gc.ca. Employers are also encouraged to find out what additional information and supports are available from their respective provincial or territorial jurisdiction.
4. Signed certifications on page 2 of 2 will be used to better understand contractor use of apprentices on Government of Canada maintenance and construction contracts and may inform future policy and program development.
5. The Contractor hereby certifies the following:

In order to help meet demand for skilled trades people, the Contractor agrees to use, and require its subcontractors to use, reasonable commercial efforts to hire and train registered apprentices, to strive to fully utilize allowable apprenticeship ratios * and to respect any hiring requirements prescribed by provincial or territorial statutes

The Contractor hereby consents to this information being collected and held by PWGSC, and Employment and Social Development Canada to support work to gather data on the hiring and training of apprentices in federal construction and maintenance contracts.

To support this initiative, a voluntary certification signaling the Contractor's commitment to hire and train apprentices is available at page 2 of 2.

If you accept fill out and sign page 2 of 2.

** The journey-person-apprentice ratio is defined as the number of qualified/certified journeypersons that an employer must employ in a designated trade or occupation in order to be eligible to register an apprentice as determined by provincial/territorial (P/T) legislation, regulation, policy directive or by law issued by the responsible authority or agency.*
