<u>No.</u>	<u>Question</u>	<u>Response</u>
001	Is there anything else we need to provide regarding this Request for Information?	Respondents can provide any information they want, but should address each of the questions in Annex A.
002	Are there any other documents associated with this Request for Information?	All documents associated with this Request for Information are found in the document itself, Amendment number 000.
003	Does Canada want a Demolition Charge made from an explosive substance other than RDX?	Canada is seeking information on demolition charges with little to no (no more than 5%) concentration of RDX. All information on material submitted will be reviewed in aid of finalizing requirements and possible solicitations.
004	Does "moulded from a homogeneous composition" refer to the plasticizers used to make the charge (i.e. not the explosive element)?	"Moulded from a homogeneous composition" means the demolition charge must have the same uniform appearance, composition and properties throughout, and the components used to make the demolition charge cannot be visually or individually distinguished. Homogeneous composition is identical wherever you sample it.
