

NOTICE OF PROPOSED PROCUREMENT (NPP) Environment and Climate Change Canada

Enterprise Architect

Solicitation #: 5000056683 Closing Date: June 1 2021 Time: 2:00 EDT

Context

Environment and Climate Change Canada approved its own Cloud Adoption Strategy in 2018 and is well underway in laying the foundations for its cloud computing program. This is part of ECCC's continuing Digital Modernization effort encompassing emerging technology and innovation, which facilitates our work towards ensuring a clean, safe and sustainable environment for all Canadians.

Scope

In order to better position Environment and Climate Change Canada (ECCC) to take strategic advantage of Cloud Computing in line with the Government of Canada's and ECCC's Cloud Adoption Strategies, the department has a need for a number of senior (Level 3) Enterprise Architects.
