Each curriculum vitae should clearly indicate the years of experience the project personnel has in the provision of the services specified in the Required Services (RS) section (i.e. Project Manager and any other personell which will perform the majority of the work resulting from the individual Call-Ups,);

2). REQUEST FOR CLARIFICATION

Q1. Page 81 of 105, Section 3.2.3 Past Experience, Subsection 2 a): A brief description of a maximum of five significant projects completed within the last five years is requested. Considering the specialist nature of movable bridges and relatively few related projects each year, we request that the five-year requirement be changed to 10 years, to enable our senior personnel to showcase their experience.

R1. The experience is revised to 10 years recent experience. 10 years recent experience is defined as related to movable bridges experience immediatley prior to the closing date.

Q2. Page 81 of 105, Section 3.2.4 Senior Personnel Expertise and Experience, Subsection 2 a): A maximum of two CV's of Senior Personnel have been requested. Can PWGSC please clarify what position these two are expected for (i.e. Senior Moveable Bridge Engineer and Senior Mechanical / Electrical Moveable Bridge Engineer)?

R2. CVs of the position expected are, Senior Movable Bridge Engineer, and Senior Mechanical/Electrical Movabale Bridge Engineer.

Q3. Page 82 of 105, Section 3.2.5 Project Personnel Expertise and Experience, Subsection 2 a): A maximum of two CV's of Project Personnel have been requested. Can PWGSC please clarify what position these two are expected for (i.e. Intermediate Moveable Bridge Engineer and Intermediate Mechanical / Electrical Moveable Bridge Engineer)?

R3. Project Manager and any other personell which will perform the majority of the work resulting from the individual Call-Ups

Q4. For this RFSO the Hypothetical Project #2 under SRE 3 SUBMISSION REQUIREMENTS AND EVALUATION - 3.2.6 requires that "Design shall be undertaken in accordance with Bridge Inspection Manual (2010 Revision)."

It is the referenced PWGSC Bridge Inspection Manual (BIM) 2010. I cannot find this document online, can you provide this to me, so, I can address the hypothetical project as required for this RFSO.

R4. Public Works and Government Services Canada Bridge Inspection Manual 2010 attached as, **APPENDIX H - PWGSC - BRIDGE INSPECTION MANUAL 2010**

Q5. We would like to request an extension to the submission due date. Would the PCPS/PWGSC consider extending the closing date to June 29, 2021?

R5. An extension has been given until June 22, 2021.

Q6. Does the offeror have to provide their subs for Underwater Investigations or Detailed Condition Survey's?

R6. The Offeror need to provide their Sub-Consultant(s) at the time of issuance of a Call-Up. With this offer at the time of solicitation closing, only Key Sub Consultants (if any) as indicated in the RFSO (Transport Engineer, Mechanical and Electrical Movable Bridge Engineer..etc.) are required.

Q7. In section 3.2.3 Past Experience, the RFSO states 'Demonstration that with in the last five (5) years, the Offeror has participated in a range of projects requiring a full scope of services in accordance with the Required Services (RS) section. The Offeror's participation in these projects should have involved the scope of services listed in the Required Services (RS) section 'requiring a full scope of services in accordance with the Required Services (RS) section

On this clause our questions are:

As many relevant projects we have undertaken vary in terms of the exact list of 'services' required by our team: Can PWGSC/PCPS modify their description so that we can present these projects for your consideration, even though they do not align to the 'full scope of services in accordance with the RS section can be submitted' (e.g.: Can projects for which only design was required be deemed admisable? or for which no Operational Manual was required? etc.).

R7. To gain the full points, the Offeror should demonstrate that they have participated in a range of projects requiring a full scope of services in accordance with the RS section.

Q8. As the regularity with which complex moveable bridges undergo substantial engineering design/rehabilitation is somewhat limited; will PWGSC/PCPS please accept sample projects completed within the last 10 years (instead of 5 as presented) so that projects from 2011 onwards garner full points for 3.2.3 Past Experience requirement?

R8. The experience is revised to 10 years recent experience. 10 years recent experience is defined as related to movable bridges experience immediately prior to the closing date.

Q9. As complex moveable bridge projects often include a prolonged maintenance / expert engineering support services provision as part of the contract terms: Will PWGSC/PSPC permit the submission of projects that are at the substantial completion/commissioning phase to garner full points for 3.2.3 Past Experience requirement?

R9. Projects that are at the substantial completion /commissioning stage are acceptable.

All other terms and conditions of the solicitation remain the same.
