**Description of Work:**

ISED has a requirement for ERP Technical Analysts – Level 3 resource to provide BASIS administration assistance to the current teams with the ABAP, Web Dynpro (ABAP variant), Fiori & Workflow development as part its operations within IFMS (Integrated Financial & Material System). The resource will work directly with the technical and functional operational teams providing expertise in the IFMS operations support area.

The Senior ERP Technical Analyst resource duties may include but are not limited to the following:

- Work in compliance with the implementation, documentation standards and best practices as established by ISED;
  - Provide high quality customer service support throughout the length of the contract;
  - Provide technical and functional guidance when requested and required;
  - Develop technical specifications and estimations for assigned work as required;
  - Conduct working group sessions/interviews with stakeholders to develop technical specifications;
  - Assist with problem solving from an ABAP and Web Dynpro perspective;
  - Ensure the proper and smooth integration of all products as part of the technical solution;
  - Conduct defect analysis and perform necessary fixes and enhancements;
  - Provide mentoring and knowledge transfer to the department’s IFMS team members;
  - Provide management presentations and status reports/updates as required; and
  - Other duties as required.
- Bidders must submit a bid for all resource categories  
- The work is currently being performed by CACHE COMPUTER CONSULTING CORP.
