Description of Work:

Health Canada requires the services of two (2) A.2 ERP Functional Analyst – L3 for the following SAP® initiatives:

Material Management Resource

The ERP functional analyst for the Material Management (MM) module will lead the submission of detailed Material Management (MM)/Inventory Management (IM)/Warehouse Management (WM) development requests and related functional specification documents for work submitted to FIRMS IT in relation to above projects/initiatives. Once developed, will be responsible to configure, test and document the related changes as part of the approved project timeline and/or normal FIRMS release process, as required.

Plant Maintenance Resource

The ERP functional analyst for the Plant Maintenance (PM) module will lead the submission of detailed Material Management (MM)/Plant Maintenance (PM)/Asset Accounting (AA) development requests and related functional specification documents for work submitted to FIRMS IT in relation to above projects/initiatives. Once developed, will be responsible to configure, test and document the related changes as part of the approved project timeline and/or normal FIRMS release process, as required.

**Bidders must submit one bid per resource
