This Solicitation Amendment No. six (6) is raised to include the following Addendum No. six (6).

The following Addendum to the tender is effective immediately. This addendum shall form part of the contract documents.

**All other terms and conditions remain the same.**

## QUESTION AND ANSWERS

1. 1.12 Project Response Time notes the required **on-site** project response time for prime and sub consultants as 48 hours. While virtual meetings due to Covid-19 are noted in 1.11 where Covid restrictions make in-person meeting impractical, what is the expectation around on-site response time when Covid restrictions no longer apply? Note while Covid restrictions may ease, the availability of regular travel options and markets may not immediately return.

***The expected on-site response time when Covid restrictions no longer apply is 48 hours. Proponents must plan accordingly for those activities requiring on-site presence both during and following the pandemic.***

***Correction to Clause 1.12, replace with:***

***It is a requirement that the prime Consultant and their proposed sub Consultants should be personally available to attend meetings within a maximum of 48 hours, in the locality of the place of the work and to respond to inquiries within a maximum of 24 hours of the Departmental Representative's request, from the date of the award of the Consultant contract until final acceptance of all deliverables.***

### 1.12 Project Response Time

- .1 It is a requirement that the prime Consultant and their proposed sub Consultants should be personally available to attend meetings within a maximum of 48 hours, in the locality of the place of the work and to respond to inquiries within a maximum of 24 hours of the Departmental Representative's request, from the date of the award of the Consultant call-up until final inspection and turnover.
- .2 The Consultant must demonstrate the availability of adequate resources to deliver the scope of services.

2. Would it be acceptable to use a project reference that was fully completed (final construction) within the last 8 years, but where our relevant involvement on project design ended prior to construction phase, and not within 8 years of closing date (i.e., Design complete 2012, Construction complete 2014) without receiving point deduction?  
***Yes, this meets the requirements.***
