This amendment is raised to answer questions from potential bidders and amend the Request for Proposal.

Questions and answers:

Q20. Paragraph 2.1 of Annex A of the above-referenced RFP refers to NATO UNCLASSIFIED documents that are not releasable to the public. On their web site, NATO states that to obtain these documents one must contact the national Ministry of Defence or national Representation at NATO HQ. Consequently we would like to receive from Canada a copy of the following documents:
STANAG 2290 ED.2; STANAG 2604 ED.3; STANAG 2805 ED.5; STANAG 4101 ED.2;
and STANAG 4381 ED.1.

A20. Requests for NATO documents can be made to TPSGC.dgsssi@tpsgc-pwgsc.gc.ca and once they get the request, the Designated Security Authority (DSA) will provide approval and send the documents.

Q21. Paragraph 4.1.7 of Annex A of the above-referenced RFP prescribes the delivery of Acceptance Test Reports (ATRs) for the mandated acceptance tests, as well as for any testing chosen as the verification method and delivered under CDRL WTT-SE-103. Does Canada expect the results of other verification methods (analysis, demonstration, examination, certification) described in Paragraph 4.1.2.1 will be also delivered under CDRL WTT-SE-103? If not, will there be new CDRLs to cover these verification methods?

A21. Yes. Canada expects the results of other verification methods described in paragraph 4.1.2.1 to be delivered under CDRL WTT-SE-103 and for the supporting documentation to be included therein. See SOW amendments below.

Q22. Due to the nature of this project, containing detailed requirements for the water tank and the trailer, in order to propose a reliable solution meeting all of the requested specifications though a complex supply chain we request Canada extend the closing date of this opportunity for one month?

A22. The Request for Proposals has provided 60 days versus the standard 40 days and the technical specification have been published and available through the RFI. While a one month extension cannot be granted at this time, Canada agrees to extend the solicitation period for this requirement for 2 weeks.

The Solicitation is hereby amended as follows.

- The closing date of the RFP is extended to July 5, 2021 at 2:00 pm.
- At Annex A – Statement of Work, Para 4.1.2.1 – **Delete:** all; **Insert:** “Completion of, and the supply of supporting documentation for, the necessary demonstrations, inspections, certifications or testing needed to show compliancy with the Technical Specification; and”
- At Annex A – Statement of Work, Para 4.1.2.2 – **Delete:** all; **Insert:** “Completion of, and the supply of supporting documentation for, the mandated acceptance tests outlined in 4.1.6 to prove the WTT conforms to operational requirements.”
- At Annex A – Statement of Work, Para 4.1.7 – **Delete:** all; **Insert:** The Contractor must provide Acceptance Test Reports (ATRs) for the mandated acceptance tests at Para 4.1.6 above, as well as for the supply of any supporting documentation to be provided under the conditions of Para 4.1.2.1 above. These ATRs must be IAW CDRL WTT-SE-103 at Appendix A3.8 (page 45) and their associated DID WTT-SE-103 at Appendix A4.8 (page 73).
- At Annex A – Statement of Work, A4.8 DID – Acceptance Test Report (ATR), Para 3 DESCRIPTION: **Delete** all; **Insert:** “The Acceptance Test Reports describe all testing, demonstrations, inspections, certifications, and analysis of equipment IAW the First Article Acceptance Plan (FAAP), and report their results.”
- At Annex A – Statement of Work, A4.8 DID – Acceptance Test Report (ATR) Para 6.1 CONTENT: **Add :**
 - 6.1.3. For verification methods other than testing, the ATRs must cross-reference all technical specifications covered under the ATR and provide supporting documentation as evidence against the technical specification being met. This supporting documentation can include, but is not limited to, certificates of compliance, references to technical drawings, screenshots of FEA results, etc.
- At Annex A – Statement of Work – A4.9 DID – Operator Manual: Section 5: amend page number reference to “SOW para 5.3.1.1.1: - **Delete:** (pg. 1); **Insert:** (pg.16)”.

All other terms and conditions remain unchanged
