### **SOLICITATION AMENDMENT 003**

The goal of this amendment to the solicitation document is to answer bidder questions.

**Question 1) Is there a current process in place for all of the departments to talk and consult with each other that we can evolve, or if not, could we create one to bring them together?**

**Our query is in relation to the fact that all content must reflect Canada's international Arctic interests and priorities vis-a-vis the ANPF, and be in lock-step with federal partners, particularly Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC), the Department of National Defence (DND) and Polar Knowledge Canada, as well as reflective of the interests and priorities of the Arctic Council. Our understanding is there will need to be a comprehensive collaboration process in order to ensure the alignment among departments, and we are simply trying to understand if a full process is already in place or if we need to include how we would go about creating one.**

Answer 1) Processes are in place in which Global Affairs Canada can consult with other government departments. Global Affairs Canada will provide the successful bidder with relevant documents to be used in the development of content and Global Affairs Canada will consult with relevant other government departments before implementing the content on our Arctic social media channels. The successful bidder will not be expected to consult with other government departments, but will incorporate feedback from Global Affairs Canada to ensure that content is developed in lock-step with other government departments.

**Question 2) I reviewed the RFP for 08023-200380/A and I was wondering if content (images and video) is provided to the contractor? Or is it the contractor's responsibility to produce the content?**

Answer 2) It is the contractor's responsibility to produce images and video content.

**ALL OTHER TERMS AND CONDITIONS OF THE SOLICITATION UNCHANGED**
