Solicitation Amendment #2 is issued to answer a potential bidder's question.

Question: In Part 4.1.2, Technical Evaluation, 4.1.2.1 Mandatory Technical Criteria, one of the requirements states:

Demonstrate a minimum of 5 years' experience implementing and installing secure videoconferencing and presentation systems in secure environments.

Please define the nature of a "secure" video conferencing installation and presentation systems.

Does this refer to secure government locations that require secret clearance to access and work, and therefore, they are considered secure solutions. Or does it refer to the technology options (IE firewalls, etc.) and capabilities?

Answer: Secure VC/Presentation Systems are defined as systems that reside within secure Government facilities that require secret clearance to access and work.

All other terms and Conditions remain the same
