The following changes to the tender documents are effective immediately. This amendment will form part of the contract documents.

Amendment 003 is issued for the following:

(1) Bidder Question and Response

(1) Bidder Question and Response

QUESTION # 3:

Our insurance broker is saying that this type of insurance is to insure someone who is going to fly a plane with passengers, which is not the case here. So we would like to know if a General liability, including work at airport/on tarmac would be sufficient then? Or if you could explain why an Aviation Liability is required.

ANSWER # 3:

Please bid in accordance with SC02 Insurance Terms, R2950D (2015-02-25) GC10 Insurance and Annex B Certificate of Insurance.

QUESTION # 4:

We also wonder why the General liability has to include:

“(a) Blasting.

(b) Pile driving and caisson work.

(c) Underpinning.

(d) Removal or weakening of support of any structure or land whether such support be natural or otherwise if the work is performed by the insured contractor.”

We will definitely not blasting, pile driving and do caisson work, and underpinning, and removing the roofing system does not weakened the structure. Can we remove those from the General liability as we are reroofing a hangar?

ANSWER # 4:

Please bid accordance with SC02 Insurance Terms, R2950D (2015-02-25) GC10 Insurance and Annex B Certificate of Insurance and refer to page 2 of Annex B Certificate of Insurance, Commercial General Liability, which states (with emphasis added): “The policy must either include or be endorsed to include coverage for the following exposures or hazards if the Work is subject thereto:”

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
