AMENDMENT NO. 002

Solicitation Amendment No. 002 is being issued to 1) incorporate an Extension of Time and, 2) answer questions from bidders.

1) Extension of Time

Notice is hereby given that the closing date for the reception of tenders is extended to Monday, June 28th 2021 at 2:00pm.

2) Questions and Answers

Q5) Based on the instructions provided in the RISO document, “Offerors should limit their response for each project to a maximum of 1500 words”. Can you please clarify if this word limit includes all the information required for the required five sections of Project Information, Project Client Information, Project Value, Project Scope and Description, and Project Management OR just applies to the last two sections; that is, Project Scope and Description, and Project Management?

A5) The 1500 word limit only applies to the text for project scope and description and project management.

Q6) Regarding M2, please can you clarify whether five years’ of experience is required in each of the three categories, or in total among them?

A6) Minimum 5 years is required in total, showing experience in all three categories.

Q7) Under Corporate Experience the Rated Requirements on page 40 of the RFSO, the request is for two Phase II/III Environmental Site Assessment projects. Can you please clarify if that is a Phase II and III project combined, or a Phase II or Phase III project?

A7) Two projects are requested; they can be two Phase II, two Phase III or one of each.

Q8) The RFP requires an Environmental Monitoring project in Annex E, M3 (Corporate Experience); however, in RFP Section 3.7 there is no description of the scope of work required (Environmental Monitoring is listed under “Other Works” and Long Term Monitoring is listed as a separate item). Could Transport Canada provide a scope description for Environmental Monitoring so that we may select a project that best reflects the scope of work required?

A8) Long term monitoring would be suitable for the submission of an environmental monitoring project. Groundwater monitoring, soil quality monitoring, sediment monitoring, etc.

Q9) The RFP sets out accreditations considered acceptable (R6) for key staff; however, many of the services listed in RFP Section 3.7 required specific accreditations in the province of Ontario. Could Transport Canada confirm if acceptable accreditations differ by key staff (e.g. Senior Project Manager, Senior Consultant – ESA, Senior Risk Assessors, Senior Sediment Assessment Specialist)? Could Transport Canada confirm if all accreditations will receive full points for all roles during bid evaluation?

A9) Any of the listed accreditations in R6 will be awarded full points.

Q11) Annex B (Basis of Payment) includes a request for firm hourly rate for Senior Technologist. No rate is requested for a Junior Technologist. As a Senior Technologist is defined in Section 2.5 as having a minimum of 8 years relevant work experience and being certified under the Ontario Association of Certified Technologists and Technicians (OACTT), does that mean that all technologists working on the SOA will be expected to meet these requirements?

A11) Yes.

**ALL OTHER TERMS AND CONDITIONS OF THE BID SOLICITATION REMAIN
UNCHANGED.**
