### AMENDMENT 003

#### LEASE PORTABLE VHF RADIOS

This amendment was raised to answer a question regarding this Request for Proposal.

#### QUESTION :

The Covid-19 epidemic situation has increased the lead-times of our supply chain of components and therefore, we are very much afraid that we will not be able to meet all the deliverables for Full Operating Capabilities (FOC) within sixty (60) calendar days from the contract award date.

As a result, we propose to Canada to review and accept the following scenario:

1. That we provide an Initial Operating Capability (IOC) by delivering 250 VHF Handheld Radio Sets within sixty (60) calendar days from the contract award date as per the current delivery requirement.
2. Then, within hundred and eighty (180) calendar days from contract award date, we would complete delivery of 165 Manpack configurations, thus providing a Full Operating Capability (FOC).

Would this proposal be acceptable?

#### ANSWER 1:

No, this proposal does not meet DND's operational requirements. DND's training season starts in September and culminates with a summer concentration to confirm knowledge. With a 180 day delivery window vice a 60 day delivery we would lose 120 days of training for long range communications. In support of September training we need to maintain 60 days delivery for both handhelds and manpacks.
