## **Description of Work:**

The objective of this assignment is to develop innovative technology solutions in line with enterprise and solution architectures currently existing or to be developed some time in the future. Once tested and deployed, solutions thus developed will have the ability to manage the Agencies' business processes under various granting programs. These solutions must be flexible enough to address requirements for new funding opportunities that are aligned with the designed business processes. The newly developed, integrated solutions will replace legacy systems and manual processes, will achieve better data integration, will raise operational efficiencies, will enhance stakeholder interaction, and will enable reporting that is currently not possible in certain areas.

- Bidders must submit a bid for the Level 3 resource category and pricing for both the Level 2 and Level 3 resources.
- The Level 2 resource will be evaluated if needed at a later date
- The work is currently being performed by MNP LPP

**Security Requirement:** Common PS SRCL #06 applies

**Minimum Corporate Security Required:** Designated Organization Screening (DOS)

**Minimum Resource Security Required:** Enhanced Reliability
