**This amendment has been raised to answer the following questions:**

- Q1** We have a question regarding the milestone schedule presented within section 1.6.2 of the Architectural & Engineering Services Terms of Reference (TOR). Are proponents encouraged to provide a proposed schedule that improves the anticipated timelines listed resulting in phase 3 completion ahead of the 2029 completion date?
- A1** As indicated in Section 1.6.1.3 of the TOR, task durations have been extended beyond reasonable expectations, due to client funding limitations. The project schedule is to be developed in accordance with the milestone list.
- 
- Q2** Will the Greening Government Strategy involve specific design requirements beyond the LEED Gold standard?
- A2** The Greening Government Strategy referenced in TOR section 1.4.2.1.2. is evolving and additional design requirements are likely such as specifying low embodied carbon for building materials, net zero carbon emissions for building operations, a grid connected photovoltaic generation system, rainwater capture and use system to reduce potable water consumption, etc.
- 
- Q3** Will this project pursue official LEED certification?
- A3** No. It is not planned for this project to pursue official LEED certification.
