This solicitation amendment 003 is raised to incorporate the questions and answers relating to the Request for Proposal.

1. The Request for Proposal questions and answers are hereby incorporated into this solicitation amendment:

Number	Question	
13	<p>In Annex A – SOW, Appendix 1- Technical Requirement Specification – ISS-A RADIO, section 4.1.12 and 4.1.13: Is/will the TSM waveform developer committed to providing the selected radio supplier with the TSM waveform and to cooperating in the waveform integration on the selected radio?</p> <p>In the listed RFP paragraphs, it says "The ISS-A Radio must be capable of using the TSM waveform". This implies that the proposed radio must have the technical ability of using the TSM waveform. The TSM waveform will have to be made available for incorporation into the radio. As the TSM waveform is a proprietary software, it has to be licensed or otherwise made available to the radio supplier.</p>	<p>The TSM waveform is owned by Trellisware Technologies, Inc. and DND does not have any control over these licenses. The vendor must already have TSM integrated in their proposed radio, and DND will not provide any TSM licenses.</p>

All other terms and conditions remain unchanged.
