This Solicitation Amendment No. two (2) is raised to include the following Addendum No. two (2).

The following Addendum to the tender is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

QUESTIONS AND ANSWERS

Q1. Will the client be providing a Digital Elevation Model suitable for Orthorectification of the site imagery?

A1: No, we have not already provided a DEM. We have the LiDAR Digital Elevation Model (DEM) from 2016, however it only covers Range and Training Area plus Garrison with 1.0km buffer and we can provide this. That being said, Service New Brunswick has LiDAR DEM's available for download for the entire AOI that we are requesting. There Coordinate Reference System (CORS) is as follows:

New Brunswick Double Stereographic Projection
NAD83 CSRS

CVGD1928 (They have LiDAR for our AOI in CVGD2013 but we want CVGD1928). LiDAR .las or Laz files can be found at the following location but the final DEM will need to use our CORS. Which is follows:

UTM Zone 19
NAD83 CSRS
CVGD 1928

Q2. GCP Access – Is there existing GCP data that can be referenced for flight planning, or does it need to be obtained?

A2. Ground Control Points will need to be established by the contractor.

Q3. 4.0.3: Metadata and Reports, page 24 - Can you confirm the preferred format of the QA/QC report requested?

A3. 4.0.3: The metadata shall be delivered in the following formats: (i).html (ii) .txt and (iii) .XML

Q4. 4.0.2: Imagery, page 23 – Can you confirm the preferred format of stereo-pairs?

A4. 4.0.2: The preferred format for the stereo-pairs would be .TIFF
