Question 94 (part 2)

Please confirm there will be no adjustments to the Management Fee after the 5th, 10th and 15th anniversaries.

Answer 94 (part 2)

Canada confirm that there will be no negotiation of the Management Fee. However, changes has been made to the Annex B – Basis of Payment. Therefore, please delete Annex B – Basis of Payment in its entirety and replace with the attached Annex B – Basis of Payment.

Question 134

In the interest of fair procurement can we request Canada issue a restated RFP which would incorporate all amended and changed requirements into one document to assure all changes are accounted for?

Answer 134

Canada has considered your request, however as all amendments to the Request for Proposal (RFP) are made public in the same manner as the RFP itself, Canada will not republish a restated RFP. Furthermore, it is the Bidder's responsibility to consult all amendments issued during this solicitation period as they form part of the subject Request for Proposal.

Question 135

For fairness of procurement would Canada review the requirements for ISO certification and amend that ISO compliance be a contract requirement, and not a bid requirement to account for the current COVID pandemic and lengthy delays for audit and certifications.

Answer 135

Canada has considered your request, however the requirement remains the same.

Question 136

We were supplied a stock listing of items currently held by DND and many items contained stock levels that covered many years of demand. If the number of pallets shipped in the three tranches does not meet the demand, will the successful bidder be able to draw from the stock held elsewhere, rather than having to procure new stock?

Answer 136

No. The intent is to completely transfer what DND has in stock, to a maximum of five (5) years of supply for the items that have such stock levels. At contract award, an updated stock transfer inventory will be provided to the successful bidder. It is important to note that some items might have very little to no stock. It is the responsibility of the contractor to provide for all the items starting at Phase 2, regardless of the level of inventory transferred from DND.

Question 137

Will the successful bidder be responsible for purchasing the new CADPAT, or will DND still control the purchasing of this fabric?

Answer 137

The contractor will be responsible to source CADPAT fabric from the fabric manufacturers approved to manufacture it. It is the intent that the complete supply chain management is transferred to the contractor, including sourcing the raw material.

Question 138

Question about submitting the Master Project Schedule for OCFC2. We have created the MPS in Microsoft Project File format. This format makes it easy to read and evaluate, however, when's it's converted to PDF the file is more difficult to read. Is it acceptable to submit the MPS in Microsoft Project format through e-post connect?

Answer 138

Yes, submission of the MPS in Microsoft Project format is acceptable.

Question 139

In reference to both Annex E Canadian Content Requirements for CADPAT Apparel, Non-CADPAT apparel, Badges, nameplates and insignias, and Soldier's personal Equipment as well as the answer to Question 71 of Amendment 006.

Annex E, section 1.2.1 Textiles indicates "List of purchases meeting the Canadian goods definition made by the Contractor during the reporting period" and 1.2.2 indicates "List of purchases not meeting the Canadian goods definition made by the Contractor during the reporting period".

Does this include textiles that are not purchased directly by the Prime Vendor but by its subcontractors? For instance, do we calculate the origin of textiles if the goods are FOB/COTS/MOTS (i.e. when item's textiles are provided directly by the subcontractor)?

If the textiles provided by subcontractors are included in the reporting, should the texts be changed to:

1.2.1 List of fabrics/textiles used, meeting the Canadian goods definition, for finished goods purchased by the Contractor during the reporting period.

1.2.2 List of fabrics/textiles used, not meeting the Canadian goods definition, for finished goods purchased by the Contractor during the reporting period.

Answer 139

Canada has considered your request, however the requirements remains the same as it applies to all textiles purchased for the Contract.

Question 140

In reference to Question 74 of Amendment 006, it is indicated that CADPAT print and printing is not considered a Controlled good. However, DND own the IP and therefore reserves the right the share the pattern and the right to print only with NATO countries .

Does this also apply to the production of goods with CADPAT fabrics? Is manufacturing of items with CADPAT fabrics limited to NATO countries?

Answer 140

The limitations of CADPAT printing do not apply to the production of goods with CADPAT fabrics. However, as per section 3.5.1 of the Request for Proposal (RFP), "Canada will assess whether, in its opinion, it can approve a subcontractor, manufacturer or country of origin for an OCF item based on its national security interests. Canada reserves the right to refuse a proposed subcontractor(s) or manufacturer(s) or country of origin."

Question 141

Will DND provide an update to the quantities per item now that the number of palettes have been updated, or should bidders continue with current quantities for bidding purposes?

Answer 141

Please find enclosed an update of the OCFC2 items currently hold at DND depot.
