Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

1 OBJECTIVES

- Who?** Parks Canada Agency (PCA) requires a variety of Suppliers, including but not limited to Trades, Technicians, Laborers & Contractors, etc.
- What?** To provide services related to but not limited to, inspection, assessment, maintenance, repairs, replacement, upgrades and/or demolition services on buildings components, systems, grounds and exterior structures;
- Where?** On a variety of assets located within Rouge National Urban Park (tenanted and vacant residential houses, agricultural buildings, visitor/recreational facilities, offices, utilities, signage/plaques, trails, boardwalks, roads, bridges, culverts and grounds); See section “**7.0 Resources of Rouge National Urban Park**” for location and boundaries of Rouge National Urban Park;
- When?** As per a predefined schedule, and on an “as and when required” basis, including after-hours emergency services.

Contracts resulting from this Supply Arrangement (SA) will include (but are not limited to) the following Streams of Services:

Stream 1 - HVAC Services	Stream 14 - Locksmith Services
Stream 2 - Plumbing Services	Stream 15 - General Contracting Services for architectural work
Stream 3 - Electrical Services	Stream 16 - General Contracting Services for civil work
Stream 4 - Powerline Services	Stream 17 - Laborers Services
Stream 5 - General Carpentry Services	Stream 18 - Landscaping Services
Stream 6 - Roofing Services	Stream 19 - Arborist Services
Stream 7 - Masonry Services	Stream 20 – Snow Removal Services
Stream 8 - Foundation Services	Stream 21 - Trails Services
Stream 9 - Demolition Services	Stream 22 - Septic Systems Services
Stream 10 - Insulation Services	Stream 23 - Wells Services
Stream 11 - Pest Control Services	Stream 24 - Earthworks Services
Stream 12 - Fire Safety Equipment Services	Stream 25 – Junk/Debris Removal Services
Stream 13 - EnerGuide energy efficiency	

2 BACKGROUND:

Parks Canada Agency manages Canada’s first national urban park – Rouge National Urban Park – in the heart of the Greater Toronto Area, Canada’s largest and most diverse metropolitan region. Rouge National Urban Park (RNUP) is one of the largest and best protected urban park of its kind in the world, circumscribing about 80 square kilometers within the cities of Toronto, Markham, Pickering, and the Township of Uxbridge.

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

The park is comprised of a rich assemblage of natural, cultural, and agricultural landscapes with many remarkable features, including a rich biodiversity with over 1,700 species of plants and animals; some of the last remaining working farms in the Greater Toronto Area; Carolinian forests; Toronto’s only campground; one of the region’s largest marshes; unspoiled beaches; amazing hiking opportunities; and human history dating back over 10,000 years, including some of Canada's oldest known Indigenous Peoples’ sites and villages. The park is also home to a national historic event, the Toronto Carrying Place trail, an Indigenous travel route linking Lake Ontario in the south to Lake Simcoe to the north. Rouge National Urban Park have a variety of assets, including 210 tenanted residential houses (mainly constructed between the mid 1800’s to the early 1970’s), over a thousand agricultural buildings, visitor/recreational facilities, offices, utilities, signage/plaques, trails, boardwalks, roads, parking lots, lawns & gardens, pedestrian & vehicular bridges, culverts and natural environments. Some of those assets have a cultural heritage value.

3 SCOPE OF WORK

The work under the resulting Supply Arrangement comprise of the furnishing of all labour, material, tools, and equipment required for the performance of Services as required by Parks Canada Agency (PCA) – Rouge National Urban Park (RNUP).

More details on the specific Streams of Services PCA is looking for are stated in the following table. Any interested Suppliers including but not limited to Trades, Technicians, Laborers & Contractors, etc., qualified to provide service under one or more of the following Streams of Services can apply to this Supply Arrangement.

Streams of Service Table:

The following table is provided as a guideline only – there is no guarantee that PCA will grant the same value of work every year:

Streams of Services	General description, Example of tasks	Estimated aggregate value of all work per stream per year:	Possible need for 24/7 Emergency Services
Stream 1: HVAC Services	Inspections, assessments, maintenance, repairs, replacements and upgrades of residential Heating Ventilation and Air Conditioning (HVAC) systems and their components (filters, oil tanks, furnaces, heat pumps, ductwork, boilers, burners, cooling, humidifiers, fans, etc.).	Up to \$ 50,000 / Year	yes
Stream 2: Plumbing Services	Inspections, assessments, maintenance, repairs, replacements and upgrades of residential plumbing fixtures and systems (water and sanitary).	Up to \$ 50,000 / Year	yes
Stream 3: Electrical Services	Inspections, assessments, maintenance, repairs, replacements and upgrades of residential electrical systems. Including, but not limited to, service connections/disconnection, replacement of fuse panel for breakers, wiring, lighting, heating, etc.	Up to \$ 50,000 / Year	yes
Stream 4: Powerline Services	Installation, maintenance, troubleshooting, repairs and removal of power system poles & overhead electrical systems (power lines and cables, conductors, transformers).	Up to \$ 10,000 / Year	yes
Stream 5: General Carpentry Services	Construct, renovate and repair houses, outbuildings and structures made of wood, steel, concrete and other materials. (e.g. porch, decking, stairs, ramps, fences, etc). Windows replacement or repairs.	Up to \$ 100,000 / Year	yes

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

Streams of Services	General description, Example of tasks	Estimated aggregate value of all work per stream per year:	Possible need for 24/7 Emergency Services
	Interior Renovations including kitchens, bathrooms, flooring, and general interior retrofit/upgrades.		
Stream 6: Roofing Services	Inspection, assessment, repairs and replacement of roofs, including plywood sheathing, flashing, eavestrough, soffits, and vents, etc. Roofing assembly may include a combination of asphalt shingles, cedar shingles, metal overlay, and/or flat built-up roofing. Inspection, cleaning, maintenance, repair and replacement of eavestrough.	Up to \$ 50,000 / Year	yes
Stream 7: Masonry Services	Building, repairing, replacing, parging and tuck-pointing of walls, floors, arches, pavings, partitions, fireplaces, chimneys and other structures made of brick and stone.	Up to \$ 25,000 / Year	no
Stream 8: Foundation Services	Inspection, assessment, repairs, replacement and waterproofing of residential building foundations. Including, but not limited to, replacement and installation of weeping tile, structural and cracks repairs, sump pumps.	Up to \$ 50,000 / Year	yes
Stream 9: Demolition Services	Partial or complete demolition services, for interior (gutting) and exterior, of poor-condition residential and agricultural buildings, with and without designated substances. Swimming pool removal.	Up to \$ 250,000 / Year	no
Stream 10: Insulation Services	Inspection, assessment, replacement or installation of residential buildings insulation (attic to basement). And air sealing solutions. Thermal imaging.	Up to \$ 50,000 / Year	no
Stream 11: Pest Control Services	Pest control services and extermination of small rodents and insects for interior only; mitigation services for all other human wildlife conflicts (i.e. human removal of wildlife).	Up to \$ 25,000 / Year	yes
Stream 12: Fire Safety Equipment Services	Installation, inspection, replacement, repairs and recharge of fire safety equipment (smoke detectors, fire extinguishers, CO detector, emergency lighting, exit signs, etc.). Inspection of buildings for fire hazards. Production of reports.	Up to \$ 10,000 / Year	no
Stream 13: EnerGuide energy efficiency home evaluation	Perform Residential EnerGuide energy assessments.	Up to \$ 10,000 / Year	no
Stream 14: Locksmith Services	For residential and commercial locksmiths. Locks replacement, installation and repairs, rekeying, implementation of access control, design and implementation of key control systems.	Up to \$ 10,000 / Year	yes

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

Streams of Services	General description, Example of tasks	Estimated aggregate value of all work per stream per year:	Possible need for 24/7 Emergency Services
Stream 15: General Contracting Services for architectural work	General Contracting Services for partial or complete interior/exterior renovations and new construction. RNUP would provide requirements, contractor would bring in their own sub-contractors if/as required, provide spec sheets, renderings, and/or shop drawings for PCA approval. For both residential and non-residential structures. + Provide optional design services for smaller projects (non-engineered, but to meet applicable codes, regulations).	Up to \$ 450,000 / Year	no
Stream 16: General Contracting Services for civil work	General Contracting Services for small, medium and large scale civil projects (e.g. repair, replacement or construction of bridges, culverts, boardwalks, parking lots, gravel and paved driveways, etc). RNUP would provide requirements, contractor would bring in their own sub-contractors if/as required provide spec sheets, renderings, and/or shop drawings for PCA approval. + Provide optional design services for smaller projects (non-engineered, but to meet applicable codes, regulations).	Up to \$ 200,000 / Year	no
Stream 17: Laborers Services	Perform various unspecialized manual work. Inside work: e.g. installing shelves, assembling furniture, installing window blinds, affixing art work to the walls, etc. Outside work: e.g. painting or erecting a fence, boarding a window, installing outdoor furniture, installing signs, wildlife habitat requiring pad or footing, bat and bird structures, etc.	Up to \$ 50,000 / Year	yes
Stream 18: Landscaping Services	Build and maintain gardens, parks and other outdoor landscapes and grounds on an on-demand basis. Sodding, garden & flower bed installation, lawn mowing, fertilization, weed control, aeration, shrubs trimming, seasonal clean up, repairs and creation of walkways, natural landscape restoration, etc. Work on natural environments requiring landscaping (stream edge repair, stump removal, wildlife exclusion fencing). Provide, deliver, install, grade and compact aggregates.	Up to \$ 25,000 / Year	no
Stream 19: Arborist Services	Tree removal, trimming, pruning, planting, hazard tree assessment, on an on-demand basis.	Up to \$ 50,000 / Year	yes
Stream 20: Snow Removal Services	On demand driveway plowing, shoveling walkways, steps and porch, salting and ice management.	Up to \$ 50,000 / Year	yes
Stream 21: Trails Services	Construction, maintenance, repairs of trails, subgrades and boardwalks.	Up to \$ 50,000 / Year	yes

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

Streams of Services	General description, Example of tasks	Estimated aggregate value of all work per stream per year:	Possible need for 24/7 Emergency Services
Stream 22: Septic Systems Services	Perform regular maintenance, respond to service call, inspect, repair and replace septic systems & components. Septic tank pump-out. RNUP have: Conventional septic systems as well as Ecoflo system & Waterloo biofilter systems.	Up to \$ 40,000 / Year	yes
Stream 23: Wells Services	Drilling, rehabilitation and decommissioning of residential and farms wells. Minor well repairs and sealing.	Up to \$ 40,000 / Year	yes
Stream 24: Earthworks Services	Excavation, trenching, land grading, large Landscaping projects, etc. Parking Lots and driveways/laneways maintenance, repair, replacement including subgrades and finished surfaces.	Up to \$ 150,000 / Year	no
Stream 25: Junk/Debris removal services	Haulage and removal of non-contaminated dumping and junk, debris. Efforts shall be made to reduce waste and support local reuse and recycling programs.	Up to \$ 25,000 / Year	yes

3.1 QUALIFICATIONS

Suppliers must be well established and experienced (refer to **Appendix “B” Qualification Package**). The successful Suppliers shall ensure that all personnel and subcontractors performing work are qualified, trained, licensed and/or certified – as needed. Proof may be requested by the PCA Project Authority at any time.

Vehicle and equipment operators shall have a valid motor vehicle license issued by the Province of Ontario and/or equivalent with the appropriate classes of license and other required certification for the equipment used in the performance of any supply arrangement contract.

4 GENERAL PRACTICES TO BE PART OF EVERY CONTRACT RESULTING FROM THIS SUPPLY ARRANGEMENT

The following General Practices are to be read and understood as they will implicitly be part of any contract resulting from this Supply Arrangement with qualified Suppliers.

4.1 WORK QUALITY

Every contract created from this Supply Arrangement must include a plan of quality, developed and implemented by the Suppliers. They shall perform the activities required for the realization of the work, taking care not to alter the quality of new and existing materials, systems, buildings or sites.

It is up to the PCA Technical Authority to decide if the work were executed in accordance with the contract and if the workforce, the materials, tools and equipment used were suitable in the execution the work. Only high quality, new materials and fittings must be used.

The PCA Technical Authority can request additional work and modify or eliminate any part of the work of the original contract as required via amendment to the contract.

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

4.2 SITE ACCESS AND SECURITY

The movement of the Suppliers, material and equipment shall be subject in advance to the approval of the PCA Technical Authority.

Consideration must be given to protecting natural, cultural, and agricultural resources and operations, and maintaining visitor services and operational requirements of the National Urban Park.

Any person (s) requiring unescorted access inside a residential tenanted building or an office building must have previously obtained a Reliability Security Status granted or approved by Parks Canada Agency Security Directorate (PCASD), see 4.2.1 for reference.

PCA recommends that all core employees anticipated to do work under this SA, undergo reliability security at the onset, so urgent work can be quoted and awarded. PCA reserves the right to ask only approved companies with reliability security screening for quotes on urgent work.

Streams of Services	Required Security Classification
Stream 1 - HVAC Services	Reliability Status
Stream 2 - Plumbing Services	Reliability Status
Stream 3 - Electrical Services	Reliability Status
Stream 4 - Powerline Services	No security requirements
Stream 5 - General Carpentry Services	Reliability Status
Stream 6 - Roofing Services	No security requirements
Stream 7 - Masonry Services	Reliability Status
Stream 8 - Foundation Services	Reliability Status
Stream 9 - Demolition Services	No security requirements
Stream 10 - Insulation Services	Reliability Status
Stream 11 - Pest Control Services	Reliability Status
Stream 12 - Fire Safety Equipment Services	Reliability Status
Stream 13 - EnerGuide energy efficiency	Reliability Status
Stream 14 - Locksmith Services	Reliability Status
Stream 15 - General Contracting Services for architectural work	Reliability Status
Stream 16 - General Contracting Services for civil work	No security requirements
Stream 17 - Laborers Services	Reliability Status
Stream 18 - Landscaping Services	No security requirements
Stream 19 - Arborist Services	No security requirements
Stream 20 – Snow Removal Services	No security requirements
Stream 21 - Trails Services	No security requirements
Stream 22 - Septic Systems Services	Reliability Status
Stream 23 - Wells Services	Reliability Status
Stream 24 - Earthworks Services	No security requirements

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

Stream 25 – Junk/Debris Removal Services	No security requirements
---	--------------------------

4.2.1 Reliability Status

For streams where a security requirement has been identified:

The Contractor/Offeror’s personnel as well as their subcontractors that require unescorted access to work site(s) as well as access to sensitive assets* or information must EACH hold and maintain a valid **RELIABILITY STATUS**, granted or approved by Parks Canada Agency Security Directorate (PCASD).

**Sensitive assets may include: Cash, artifacts, firearms, explosives, keys, vehicles, Historic sites and buildings, electronic equipment, IT networks, Critical installations and systems, etc.*

The Contractor/Offeror’s personnel as well as their subcontractors **MUST NOT** remove any PCA information or assets from the identified work site(s) without consent from a PCA employee, and they must ensure that their personnel are made aware of and comply with this restriction.)

4.2.2 No security requirements

For streams where a security requirement has not been identified:

There are **no security requirements** as long as the contractor has no access to protected or classified information or sensitive assets* and is treated as a visitor and **MUST BE escorted at all times** if work must be performed inside operational zones or restricted non-public areas such as PCA compounds or buildings.

**Sensitive assets may include: Cash, artifacts, firearms, explosives, keys, vehicles, Historic sites and bldgs, electronic equipment, IT networks, Critical installations and systems, etc.*

The Contractor/Offeror’s personnel as well as their subcontractors **MUST NOT** remove any PCA information or assets from the identified work site(s) without consent from a PCA employee, and they must ensure that their personnel are made aware of and comply with this restriction.

4.2.3 SCHEDULE AND COMMUNICATION

- For any work required on a tenanted property, the Suppliers must contact PCA for site access permissions 48 hours in advance (unless it is an emergency service call).
- The Supplier must provide an estimated start time within 1 hour of accuracy.
- The Supplier must provide a courtesy call - if requested by tenant - 30 minutes before arrival.
- Suppliers to provide a phone number for the lead service provider to be contacted before, during or after any site visit.

4.3 CLEAN-UP

The Suppliers shall perform daily cleanup to the satisfaction of the PCA Technical Authority by means of:

- a) The Suppliers shall maintain the Work and its site in a tidy condition and free from an accumulation of waste material, dust and debris.
- b) Before the issue of a Certificate of Substantial Performance, the Suppliers shall remove waste material, dust and debris, and all Plant and Material not required for the performance of the remaining Work and, unless otherwise stipulated in the Contract Documents, shall cause the Work and its site to be clean and suitable for occupancy by Canada.
- c) Before the issue of a Certificate of Completion, the Suppliers shall remove all surplus Plant and Materials and any waste products, dust and debris from the site of the Work.

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

4.4 PERFORMANCE PERIOD

Upon receipt of Contract Award, the Suppliers shall begin work and complete the entire scope of work, including final inspection and project acceptance within the agreed upon schedule described in the Statement of Work or agreed to at initiation of the project. No deviation from this schedule shall be permitted without prior approval from the PCA Project Authority.

4.5 SUSTAINABLE DEVELOPMENT

The Canadian Federal Government has begun a series of initiatives to ensure that sustainable development principles are built into the policy of all federal organizations. Sustainable development goals will be outlined in each solicitation.

4.6 CODE COMPLIANCE

Although Rouge National Urban Park is governed by national codes and regulations (e.g. National Building Code in place of Ontario Building Code), generally Parks Canada will require that most stringent will be observed. Parks Canada will define which specific codes and regulations to adhere to.

4.7 ENVIRONMENTAL CONSIDERATIONS / MITIGATIONS

Parks Canada Agency has legal and mandated obligations to protect Canada's natural and cultural heritage. All Service Suppliers must read, understand and follow – where applicable – the following guidelines and mitigation measures:

4.7.1 For any outdoor work:

Parks Canada National Best Management Practices for Common Activities (to be provided upon award of Supply Arrangement)

This Best Management Practice (BMP) applies to the common activities related to most projects (e.g., construction, demolition, maintenance or modification) taking place greater than 30 meters(m) from a waterbody¹ as measured from the High Water Mark² and outside of critical wildlife timing windows (e.g., nesting, breeding, migration, denning).

Suppliers must be aware that if a project requires additional mitigation measures specific to aquatic resources, vegetation, species at risk, birds, wildlife, sediment and erosion control, or other non-common activities, consideration of another Impact Assessment (IA) pathway may be required i.e., Basic Impact Analysis (BIA) or Detailed Impact Analysis (DIA).

4.7.2 For any building maintenance work:

Preapproved Routine Impact Assessment - (to be provided upon award of Supply Arrangement)

Preapproved Routine Impact Assessments (PRIA) are pre-determined environmental management and mitigation measures for a defined class of routine, repetitive projects or activities with well understood and predictable effects. Approved PRIAs are an acceptable Impact Assessment pathway as they fulfill Parks Canada's obligations under the Impact Assessment Act (IAA) as a manager of federal lands.

This PRIA applies to the modification, maintenance, repair, replacement, decommissioning or abandonment of buildings or other structures.

¹ Waterbody: All aquatic ecosystems including, lakes, ponds, rivers, streams, wetlands and canals.

² High Water Mark: the usual or average level to which a body of water rises at its highest point and remains for a sufficient time so as to leave a mark on the land (Fisheries and Oceans, 2016).

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

4.8 HEALTH & SAFETY

- ❖ The Suppliers must ensure their employees and/or subcontractors adhere to Canada Labour Code and Canada Occupational Health and Safety Regulations while performing the work.
- ❖ The Suppliers are responsible for health and safety of persons on site, safety of property on site and for protection of persons adjacent to site and environment to extent that they may be affected by conduct of Work.
- ❖ The Suppliers will develop a written site-specific Health and Safety Plan based on hazard assessment and the COVID pandemic prior to beginning site work.
- ❖ The workers must wear Personal Protective Equipment as required such as safety hat, safety boots and glasses, breathing apparatus, dust masks, safety harness, procedural masks, protective gloves, etc.
- ❖ Comply with requirements of Workplace Hazardous Materials Information System (WHMIS) regarding use, handling, storage, and disposal of hazardous materials; and regarding labelling and provision of material safety data sheets acceptable to Labour Canada and Health Canada.

4.9 INDIGENOUS PROCUREMENT

PCA reserves the right to employ various strategies to enhance Indigenous opportunities. Under this agreement, PCA may employ strategies which include, but are not limited to, the Procurement Strategy for Aboriginal Business (PSAB), Indigenous Benefits Plans (IBP) and setting aside packages of work to Indigenous Supply Arrangement holders.

4.10 PARKS CANADA AGENCY RESPONSIBILITIES

- ❖ Manage the contract;
- ❖ Organize and schedule all project and/or site meetings.
- ❖ Conduct field review and contract administration where there is no consultant involved.
- ❖ Environmental site surveillance.
- ❖ Provide site access when required.
- ❖ Communicate with tenants.
- ❖ Where possible Green Materials and processes should be promoted
- ❖ Where possible improvements to Accessibility should be promoted

4.11 SUPPLIERS RESPONSIBILITIES

- ❖ Meet with Parks Canada Agency (PCA) project team
- ❖ Perform the work as described in the Scope of Work provided or instructed
- ❖ Notify PCA of any issues or unforeseen hazards during the course of the project
- ❖ Contact PCA for site access permissions when required, 48 hours in advance
- ❖ Where possible Green Materials and processes should be promoted
- ❖ Where possible improvements to Accessibility should be promoted

5 LOGISTICS

Here are the main steps between now and the creation of a contract between PCA and... maybe you!

STEP 1 Application	Any interested Suppliers qualified to provide one or more of the following Streams of Services can apply to this Supply Arrangement.
Step 2 Security	Suppliers who may be asked to enter unescorted into tenanted residence or offices must obtain a Reliability Security Status granted or approved by Parks Canada Agency Security Directorate (PCASD).
Step 3 Need	When PCA identifies a need covered by this SA, they will create a Statement of Work defining clearly the need.
Step 4 Request for quotation*	PCA to obtain quotes from one or multiple pre-approved bidders on this SA as per the following table.

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

Step 5 Bid evaluation	Bids to be evaluated.
Step 6 Contract	A contract is to be created between both parties.
Step 7 Work or Delivery of Service	Performance of the agreed work or service by the awarded bidder.

***STEP 4 – REQUEST FOR QUOTATION**

Based on the project financial threshold, PCA is to contact pre-approved Suppliers on SA as follows:

Financial Thresholds *	< \$10K (includes applicable tax)	\$10k-25k (includes applicable tax)	\$25k-100k (includes applicable tax)	\$100k+ (includes applicable tax)
Bid Selection/Method	PCA to request minimum 1 quotes, on a rotation basis.	PCA to request minimum 2 quotes, on a rotation basis.	PCA to request minimum 3 quotes, on a rotation basis.	ALL providing requested services to be invited to bid.
Contractual Process	Handled through RNUP	Handled through RNUP	Handled through National Contracting Services	Handled through National Contracting Services
Documents	WO / 25K	WO / 25K	ITT	ITT

* At Parks Canada’s discretion, we reserve the right to go directly to a specific contractor in certain circumstances (e.g. repeat visit for similar issue to the same location or after hour emergency work).

5.1 CONSIDERATIONS

- ❖ PCA reserves the right to revalidate qualifications at any time.
- ❖ Additional Streams of Services may be added to this SA in the future through contractual amendments. All performance will be assessed and documented. To ensure that only trustworthy, reliable and professional service suppliers stay on the SA, PCA will apply a 2 contracts probationary period. If PCA is unsatisfied with the work or service received, the service provider will be removed from the SA, upon written notice.

6.0 Performance Evaluation

Contract performance will be assessed using the form PWGC-TPSGC 2913, Select - Contractor Performance Evaluation Report (CPEP). In cases where a contractor performs to a “Not Acceptable” or “Not Satisfactory” level in two awarded contracts, that contractor will be informed in writing of the assessment and removed from the Supply Arrangement. After a period of one year (365 days) the contractor will be able to re-apply to the Supply Arrangement.

- ❖ Here are the reasons that could justify PCA to remove a service provider from the SA:

❖ QUALITY OF WORKMANSHIP
This is the rating of the quality of the workmanship. At final completion the quality of the materials and equipment incorporated in the work must meet the requirements set out in the plans and specifications.
❖ TIME
This is the rating of the timeliness of completion considering the actual completion date compared with the original (or amended) contract completion date and allowing for conditions beyond the control of the contractor.

TERMS OF REFERENCE –

Request for Supply Arrangement (RFSA) - General Contracting Services for Rouge National Urban Park

PROJECT MANAGEMENT
This is the rating of how the project as described in the drawings and specifications was managed including co-ordination, quality control, effective schedule development and implementation.
CONTRACT MANAGEMENT
This is the rating of how the contract was administered in accordance with the provisions expressed in the "front end" portion of the documents.
HEALTH AND SAFETY
This is the rating of the effectiveness of how the occupational health and safety provisions (whether identified in the contract or those of provincial/territorial legislation or those otherwise applicable) were managed and administered.
