This solicitation amendment 006 is raised to incorporate the questions and answers relating to the Request for Proposal.

1. The Request for Proposal questions and answers are hereby incorporated into this solicitation amendment:

Number	Question	Answer
1	<p>It is stated that all ISS-A radio cables must connect with the Assaulter Hub; except for the Programing cable. However if cables provide both Power and Data directly from the Radio to the Assaulter Hub; does it not eliminate the need for 2 seperate (Power as per Item 1 ISS-A definition / Item 3 Data Cable definition) cables?</p> <p>Furthermore, in paragraph 5.2.2. It is stated the ISS-A radio must be compatible with Land Warrior batteries; is this meant via the Assaulter Cable or directly from the radio to those batteries?</p>	<p>DND prefers only one radio cable for both power and data, connected directly to the assaulter hub (Glenair Star Pan II) RADIO port. Power will be provided to the assaulter hub using separate cables connect both batteries to the assaulter hub BATTERY ports.</p>

All other terms and conditions remain unchanged.
